Whitehall, S.W.

9th May, 1890.

Sir,

With reference to your letter No.378 W.dated 3rd March, 1890, in which it is requested that two agate pens for use with a ferro-prusside copying press may be supplied in lieu of two broken ones returned to this country, I have to inform you that these pens were carefully examined and tried on paper before being shipped, but that the points were not looked at microscopically, which would have been necessary in order to detect the want of finish, [rather than breakage] on the points of one of them. The other pen has one of the agates distinctly chipped, and, had it been in that condition when tried here, the defect would have been discovered.

The pens have been repaired, at a cost of 5s, and are now in good condition. They were returned to Madras by the mail of 2nd May, 1890.

I have the honour to be, Sir,

Your obedient servant,

A. Fitzp

Director General of Stores.
