GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Military Works.

READ—the following letter from the Officiating Secretary to the Government of India, Military Department, to the Secretary to the Government of Madras, Public Works Department, dated Simla, 27th July 1887, No. 1531 M.W. :—

I am directed to acknowledge the receipt of your letter, No. 1858 W., dated 11th July 1887, inquiring whether, when there are no alterations, or only trifling deviations from the printed return, of public military buildings submitted in the previous year, it is necessary to forward a complete printed return for each succeeding year; or whether it will be sufficient merely to intimate the fact of there being no changes, or forward a list of such trifling alterations in manuscript.

2. In reply, I am to state, for the information of the Governor in Council, that, when there are no alterations, it will be sufficient to inform the Government of India to that effect; and that, when there are only small changes, a statement of corrections required in the returns may be forwarded. It would, however, be convenient if the corrections were in print and on such form that they could be pasted in the returns to which they belong.

ORDER—dated 19th August 1887, No. 2213 W., Public Works.

Communicated, with reference to the orders marginally noted, to Superintending Engineers and the Military Department.

No. 1934 W., dated 20th August 1885.
„ 2169 W., „ 16th Sept. „

2. When complete printed returns of public military buildings in all circles have been once submitted, it will be sufficient, in succeeding years, to forward simultaneously to the Chief Engineer and the Quartermaster-General, as soon as possible after 1st April, either *nil* returns of changes, or printed * statements of changes, in the form desired by the Government of India. It will be left to the discretion of Superintending Engineers to reprint the return when the alterations or additions are becoming numerous.

* Six copies to the Chief Engineer.

3. The return of changes in the register of public military buildings for the year ended 31st March 1887, forwarded by the Superintending Engineer, I Circle, on the 17th June 1887, should be re-submitted in print in accordance with this order.

Returns of Public Military Buildings.

Orders on letter from the Government of India forwarding instructions regarding the annual submission of printed —.

PUBLIC WORKS DEPARTMENT.

No. 315 C., dated 17th January 1890.

CIRCULAR MEMORANDUM.

READ—the following paper:—

From Lieut.-Colonel A. C. SMITH, R.E., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Tanjore, 13th January 1890, No. 2210 T.J.

With reference to your memo. No. 666 C., dated 9th February 1889, ordering that the registers of public buildings, submitted annually to your office, should be printed once for all, I have the honor to observe that this register was generally due in your office by the 1st of January each year.

2. Your memorandum was duly circulated to divisions with the request that the division returns for 1889 should be submitted so as to reach this office by the 10th December, and that they should be complete, but the registers of Tinnevelly and Madura divisions have not yet been received, and the general register for the circle cannot therefore be completed and sent to the press.

3. The register of the Madura division is expected to reach this office in a few days; but the Executive Engineer, Tinnevelly division, now reports that the return probably will not be ready before the end of February next. The cause of the delay is attributed to many buildings, which have not been brought in the return hitherto having now to be brought on, and these forming subjects of correspondence with the sub-division officers and officers of other departments. It is not therefore likely that the general register for the circle will be ready for submission before the end of March next.

4. Return of public military buildings is required to be submitted on the first of April of each year, it is not understood why the other return for civil buildings should be required by the 1st of January. I beg to submit for your consideration the advisability of adopting in this case also the former course. In fact the returns will be more complete if rendered after the completion of each official year. The dates of submission might also be extended to 15th April in the both cases.

The Chief Engineer approves the proposal in para. 4 of the Superintending Engineer's letter, and directs that the return of buildings, item 2, section II, appendix H, Public Works Code, be prepared for the official year and submitted so as to reach the Chief Engineer's office by 15th April in each year. The same date will be adopted for the submission of the return of military buildings, item 11.

(Signed) R. R. E. DRAKE-BROCKMAN, Lt.-Col., R.E.,
Ag. Chief Engineer, P.W.D., General,
Buildings and Roads Branch.

To Superintending Engineers.
To the Consulting Architect to Government.

PUBLIC WORKS DEPARTMENT.

No. 666 C, dated 9th February 1889.

MEMORANDUM.

It having been noticed that the extracts from registers of public buildings submitted annually to this office under para. 975, Public Works Code, involve a large amount of clerical labor, the Chief Engineer has the honor to suggest that, as in the case * of military buildings, the registers should be printed once for all, and complete printed copies supplied to this office from each circle. Thereafter it will only be necessary to forward annually *nil* returns of changes, or correction slips printed in such form that they can be pasted in the returns to which they relate.
