№ 2085 Executive Engineer's office
Coimbatore 7th May 1890

From

G. B. Lambert Esq
Executive Engineer
Coimbatore Division

To

The Superintending Engineer
Fourth Circle, Coimbatore

Sir,

I have the honor to re-quest you will be good enough to obtain the sanction of Government for payment of Rs 20 per mensem compensa-tion in lieu of quarters to Serjt Instructor W. Reader attached to Yercaud Rifle Volunteers, under P. W. code Appendix C section II B, item № 4.

2 His predecessor Serjt Instructor W. P. Mac Guire drew Compensation at the rate of Rs 20 per mensem up to 31st January 1890 and it was

passed

passed by the Examiner of P. W. Accounts without objection.

3 Serjt Reader succeeded Serjt Mac Guire and claimed compensation at the rate of Rs 20 per mensem from the 1st February 1890, but it was reduced to Rs 15 by the Examiner for want of sanction of Government for the higher rate of Rs 20 per mensem.

4 As the house rent on the hills is dearer than on the plains, I have the honor to recommend that sanction of Government may be obtained for the payment of higher rate of Rs 20 per mensem as compensation as heretofore.

I have the honor to be
Sir
Your most obedt. servant

To W.

The sanction for the higher rate of Rs.20 per mensem was given on appointment of the previous incumbent, and the charge was challenged on a change of personnel. It seems doubtful whether renewed sanction is necessary on each change of personnel, but having regard to the conditions on which the higher rate is admissible, vide appendix C, section II B. item No.4(remarks), occasional revision of sanction seems necessary and probably a periodical revision at stated intervals would be the most satisfactory plan i.e. the sanction to be given for a limited period only, and to be renewed at the end of it.

2. The conditions are abnormal rate of house rent at the station concerned, and inability of the corps to meet the extra expense from their own funds, both of which conditions, and especially the latter are likely to vary from time to time. There is nothing in the papers bearing upon either of these points.
