Lamp ^{D. J. J.} DOWLAISHWERAM, 20th May 1890
Despd 23/5/90

SIR,

23/5/90 20.5.90
In continuation of my telegram dated 11th May 1890 informing you that two subordinates are urgently required for the Anchikulga Division, I have the honor to bring to your notice that at present there are only four subordinates on duty in the Division against six the sanctioned number. One of the subordinates is Sub Engineer W. Venkataraddi who is a detached officer in special charge of the works in progress at Ansellkonda Reservoir and the others are overmen.

2. When Supervisor Nithyananda Mudaliar went on three months' leave on the 6th February, 1890, overman S. Venkatarathnam was transferred from

from the Fedarari District to take his place, but this officer went sick on the 19th of last month, and has sent a sick certificate for leave to 1st June/90. Narasimha Syengar, officer appointed by you has not yet joined.

3. In consequence of there being so few subordinates it was impossible to make the most of the working season now drawing to a close. At present in the Sub Division the construction of Guinagar ament is in progress, and the earthwork of the Mahamadi Canal extending over nineteen miles is being carried out, but the only subordinate available for the Sub Division is a sub-officer who cannot level and does not understand a plane. It is necessary to keep the Sub officer on the ament every day for the work is being executed departmentally it having been found impossible to get a Contractor to take it up. Mr. Somers Eve is obliged to devote the most of his time to the ament too, so the result is the Canal work is not much inspected. I consider it is not very

any means advisable to leave the Canal work almost entirely to the supervision of maintainers for the banks in several places are high being in one place 20 ft. high. Moreover several under tunnels are sanctioned for the Canal and in some instances the materials are collected and the excavation for the foundations completed, but the construction cannot be commenced for there is no subordinate to look after the works.

4. With regard to how the three officers in the Division are employed, one is at Janamilli Ament now under construction; one at Godohalla and Shajada ^{Aqueduct} ~~tunnels~~ both of which are large works and now under construction; and one is employed on the lower part of the Pashikulya Canal where earthwork is in progress.

5. There is plenty of work for the full complement of subordinates allowed for the Division for several under tunnels and irrigation sluices require to be located, and the channels from them laid out ~~etc~~, but there is no subordinate available to take the necessary levels ~~etc~~.

6. Experience shows that subordinates employed in the Pashikulya Division often get

get sick and go away on leave. I
think therefore there should be at least
two men allowed over the number of
subordinates sanctioned to take the place
of men who may require to go on leave.

7. I have been for some days inspecting
the works of the Rushikulya Division and
I have been very much impressed with
the great want there is of additional
subordinates. Accordingly I bring the
subject to your notice for such action
as you may deem advisable.

I have the honor to be
Sir,

Yours most obed^t serv^t

With reference to letter
from the S.S.I Circle no $\frac{C}{198}$
of 20. May 1890, & in con-
tinuation of this office
no 2318C of 20. May 1890,
the undersigned has the honor
to state C. Sthiravulu Nayudu
has been appointed temporary
overseer in lieu of N.
Narasimha Aiyangar, & that
overseer D. Venkatarathnam
who was posted to the
Rushikulya Project in
lieu of Supervisor Kityananda
should by this time have re-
turned from leave. With
the large number of upper
subordinates on leave in other
circles, it is not practicable
to send two additional men
to the Rushikulya Project.

OFFICE NOTE.

From

To "W" -
Your Memo 6/6/90
about Subordinate
for Rushikulya sent
to us for countersignature.
The state of affairs
brought to notice by
the S. P. in his 131
23/5/90 is much
serious - the work
for the year is
Rs. 50,000 and there
are several most
important works going
on, works which if
not efficiently looked
after will give
serious trouble.
D. S. Russellkonda

Letter from the S.E.
I circle by $\frac{C}{198}$ 20.5.90
note by J. 27
6.6.90.

Submitted to
the Hon. Member for
sanction to an ad-
dition of two over-
seers to the temporary
establishment.

The undersigned
finds it impracticable
to increase the upper
subordinate establishment
of the Rusbukha
Project from 6 to 8
by transfers from
other circles, which
are all more or less
short handed owing
to the number of

the very

men on sick leave &c

Chs 5283.

Note

Owing to the absence
of nearly a dozen upper
subordinates on leave,
every Circle in the Presidency
is below its sanctioned
strength.

Mr Circle has already
been strengthened by the
transfer of Supervisor P.
Ratnaswami Chudaligar
and by the appointment of
temporary overseers C. Etha-
napulu Chudaligar.

To an application re-
ceived yesterday for two
extra overseers for the
Ruslikulga Division, I
have put up a note showing
that the demand could
not be met by transfers
but would require the
creation of posts, & the
appointment of two more
temporary overseers.

Proposed to send this
paper also on to Ooty in
continuation of yesterday's

In the statement
attached to G.O. W^o 1234 W^o
of 28 April 1890, the
functional scale of
upper subordinate officers
for the Ruzhikulya D^o
was fixed at seven
(6 permanent and 1 temporary)
In the circumstances
now reported by the
Supply D^o, the au-
thorised strength will
be increased to eight
(6 permanent and 2 temporary)
and to enable the

Chief Engr to post another
subordinate to the division,
the entertainment of an
additional temporary
overseer on Rs 60 per
month is sanctioned.

2. This sanction has
been registered as Prob
No 19 W of 1890-91, &
classified as Extraordinary.
Temporary.
