It is requested that the heading, number, and date of this communication may be quoted in any subsequent correspondence on this subject.

From

BRIGADIER GENERAL M. PROTHEROE, C.B., C.S.I.,

QUARTER MASTER GENERAL,

To

THE SECRETARY TO GOVERNMENT,

MILITARY DEPARTMENT.

SIR,

I am desired to forward for sanction and transfer to the Public Works Department for disposal, the estimate, plan, &c., below-mentioned which have been approved by the Commander-in-Chief. The plan and estimate have been countersigned.

Estimate amounting to Rs 1300 for sinking a new well and constructing additional drains in the lines of the Native Infantry Regiment at Vizianagram with specification report and plan. Should funds be available for the purpose the Commander-in-Chief proposes to make an allotment for this work from the coming year's grant for improvements to Sanitation of Lines of Native Troops.

I have the honor to be

Sir
Your Obedient Servant
Affectionate Colonel
Mr. Quarter Master General

From the Military Dept.

To St. J. of Sanction

NOTE OF REMARKS. 15.1.90

The estimate under
No. 1300 provides for
sinking a well and
constructing additional
drains in the line
of the Station Infantry
Vizianagaram.

It is explained
in this report that
the system of cleaning
the drains of the Station
Infantry has been
found unsatisfactory
and that it is proposed
to flush
the drains by means
of gravitation with
water obtained
from a well to be
sunk in a position
which will command
them.

The proposed
well will be 7 1/2' in
diameter and is
to be sunk 50 feet
below the surface

of the ground, the
steining will be of
dressed stone in work.
There is to be a platform
all round it in breadth
beyond which will
be a catch-water drain
with a short outfall
drain 20' in length.
A brick cistern is to
be built from which
there will be a V shaped
drain 100 ft in length.
Some of the existing
drains in D Company
lines are to be taken
up & replaced.

It is further explained
that that portion
of the work which
deals with the left
wing will not be
carried out until
it has been proved
that the water supply
is sufficient.

The rates for the
work & drains cannot
be checked. The other
rates such as brickwork,
concrete, plastering
& woodwork are fair.

It may be more
convenient to stand here
the uprights for the
support of the drain
which passed at right
angles to the cistern
instead of the position
in which they are

shown on the plan.

The plan & estimate
have been reviewed
by the G. O. General
and approved in the
Military Dept. *W. P.*
W. P.
