READ—the following paper:—

From the Superintending Engineer, III Circle, dated 3rd Feb. 1890, No. 3245.

ABSTRACT.—Forwarding statement of proposition for revision of establishment in the Bellary division.

No. 7 E.W.

Forwarded to the Chief Engineer, Roads and Buildings Branch, with the request that a temporary overseer on Rs. 80 and a temporary draftsman on Rs. 35 per mensem for six months be sanctioned for preparing estimates for tanks in the Upper Pennér minor basin in the Bellary division.

2. As the cost of surveyors and lascars should, under para. 184 of the Public Works Code, be charged to Minor Original Works, the Superintending Engineer can himself sanction their employment for six months. One overseer could economically look after two surveyors, one on Rs. 30 and the other on Rs. 60 per mensem, and nine lascars should be provided for the party. The Superintending Engineer's proposition statement has been altered with reference to the above remarks.

In his letter N^o 773 dated 18th June 1890, the Supg. Engineer, 3rd Field, has reported that an extension from 6 to 12 months of the sanction for Extra Establishment accorded in G.O. N^o 737. W. dated 7th March 1890 is necessary for estimating the requirements of the groups of tanks many of which affect the railway. He also requests that the pay of the draughtsman be increased from Rs 35 to Rs 50 as a competent man cannot be got on the smaller pay. It is recommended that the extension of sanction for the Extra Establishment applied for and the increase of pay to the draughtsman be sanctioned. A proposition
