SIR,

I am submitting the plans and estimate from the Consulting Architect to Government for altering the roof of the Carpet weaving room in the School of Arts. I have the honor to state that I requested that officer to provide in the D. F. NOTE OF REMARKS. 11.7.90

Rec'd 12.7.90

The plans & estimate under review, the latter amounting to Rs 1030, provide for altering the roof of the Carpet weaving room in the School of Arts.

The inner dimensions of the room are 61½ × 15 -

It is explained that the existing low-pitched roof is too low and leaks very much on account of the pitch being insufficient, & it is therefore proposed to raise the tower walls and to put on a turned roof with a covering of mangalore tiles -

The scantlings of the roof timbers are correct but the trusses are placed at unequal distances of two feet apart, instead

Maj

of 4 times it would hold if Pans were 6 times present depth apart -

It is also proposed to raise the existing pits about ground level. They are at present below ground level and it is stated get filled with water when it rains -

The rates are fair. Contingencies & Petty Supervision are provided for at 5% & 2½ per cent respectively -

The plans & Est. have not been countersigned by Public Instructions but they have been submitted to Govt. by Local Officer & approved in the Educational Deptt:-
