GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following paper:—

From J. W. MARTIN, Esq., Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Dowlaishweram, 27th June 1890, No. 119 V.Z.

Referring to para. 2 of this office letter No. 8 G.L., dated 1st April 1890, in the matter of establishment, I have the honor to forward copy of letter No. 496, dated 4th instant, received from the Executive Engineer, Vizagapatam Division, together with a map showing the boundaries for the three sub-divisions proposed (excluding Koraput sub-division) in case a third one is sanctioned.

2. I think the Executive Engineer's reasons for asking that another sub-division should be sanctioned are reasonable. The division is enormously large, and, in consequence, it is almost impossible for the works to be properly attended to with only three sub-divisional officers.

3. At present the Executive Engineer looks after the works at Waltair and Vizagapatam, for he cannot in the interest of the works out in the district put a sub-divisional officer in charge, but as he has only a sub-overseer under him the arrangement is unsatisfactory, particularly as the Executive Engineer must be often absent from head-quarters for long periods on account of the very great size of the division.

4. Under these circumstances, I recommend that another sub-division should be sanctioned.

ENCLOSURE.

From J. TRAIL, Esq., Executive Engineer, Vizagapatam Division, to the Superintending Engineer, I Circle, dated Bodderu, 4th June 1890, No. 496.

With reference to your No. 4, dated 1st and 3rd April 1890, I have the honor to forward herewith a tracing showing the boundaries of the proposed sub-divisions.

2. That which I purpose calling the Yellamanchili sub-division will include nearly all the more important irrigation works to the south-west of Vizagapatam leaving other irrigation works to the north-east of Anakapalle in charge of the Vizagapatam sub-division officer, which I propose should extend from Anakapalle on the south-west to Bimlipatam on the north-east, a distance of about 40 miles. There are constantly repairs and new buildings going on between Vizagapatam and Waltair, which have hitherto had to be looked after by a sub-overseer, as the Vizagapatam sub-division officer has his time fully occupied with buildings and irrigation works south-west of Anakapalle and extending beyond Narsapatnam.

3. The enlarging of the Vizagapatam sub-division to the north-east will relieve the Vizianagram sub-division officer of some of his charge which is at present a large one, extending north to the Ganjam frontier, and though the works in his sub-division are not very numerous, they are much scattered, and the time occupied in travelling from one work to another is more or less wasted.

4. The military buildings in Vizianagram and the bridges on the Potinghi ghât take up most of his time, and he has also the jail and other buildings at Párvatipur.

5. The division being a very large one, the Executive Engineer to get through his inspection duties must be almost constantly out, and a responsible subordinate ought to be placed in charge of the head-quarter sub-division. At present in his absence there is only a sub-overseer to look after all the works in Waltair and Vizagapatam.

ORDER—dated 23rd July 1890, No. 2017 W., Public Works.

The proposed re-arrangement of the sub-divisions of the Vizagapatam division and the formation of an additional sub-division, to be termed the Yellamanchili sub-division, is sanctioned.

2. The Superintending Engineer will submit a statement in the prescribed form applying for the requisite additional establishment.

(True Extract.)

Sir,

With reference to your No. 4
dated ^{1st}/_{3rd} April/90, I have the honor to
forward herewith a tracing showing the
boundaries of the proposed Sub-division.
2. That which I propose calling
the Yellamanchili Sub-division will
include nearly all the more important
irrigation works to the South-West of
Vizagapatam leaving other irrigation
works to the North-East of Anakapalli
in charge of the Vizagapatam Sub-Div.
Officer, which I propose should extend
from Anakapalli on the South-West to
Bhimlipatam on the North-East, a
distance of about 40 miles. There are
constantly repairs and new buildings
going on

going on between Vizagapatam and Waltair, which have hitherto had to be looked after by a Sub-Overseer, as the Vizagapatam Sub-Division Officer has his time fully occupied with buildings and irrigation works South-West of Anakapalli and extending beyond Arasipatam.

3. The enlarging of the Vizagapatam Sub-Division to the North-East will relieve the Vizianagaram Sub-Division Officer of some of his charge which is at present a large one, extending north to the Ganjam frontier, and though the works in his Sub-Division are not very numerous, they are much scattered, and the time occupied in travelling from one work to another is more or less wasted.

4. The Military Buildings in Vizianagram and the bridges on the Pottinghi Ghat take up most of his time and he has also the Jail and other buildings at Parvatipore -

5. The

5. The Division being a very large one, the Executive Engineer to get through his inspection duties must be almost constantly out and a responsible subordinate ought to be placed in charge of the Head Quarter Sub-Division. At present in his absence there is only a Sub-Overseer to look after all the works in Waltair and Vizagapatam.
