8TH JULY 1890, No. 492, PUBLIC.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following paper:—

From J. P. HEWETT, Esq., Under Secretary to the Government of India, Home Department (Public), to the Chief Secretary to the Government of Madras, dated Simla, the 12th June 1890, No. 1143—18, Public.

I am directed to forward, for information and any further action that His Excellency the Governor in Council may consider necessary, the accompanying copy of a circular order issued by the Chief Commissioner of Assam in view to preventing the repetition in various annual reports of references to particular subjects which are treated in the special reports submitted regarding them.

ENCLOSURE.

From F. C. DAUKES, Esq., Officiating Secretary to the Chief Commissioner of Assam, to all Deputy Commissioners, Assam, dated Shillong, 31st January 1890, Circular No. 5—J.

The Chief Commissioner finds that, among the reports prepared in this Province, there are in some cases perplexing cross divisions of subjects which entail a great deal of additional labor by causing the same subject to be treated twice over (and sometimes more often) in different reports. A further and more serious consequence of this defective arrangement, whereby remarks on the same subject are scattered over different reports, is that important points appertaining to any given subject are apt to be overlooked in dealing with the particular report in connection with which they ought to be treated. Thus Vital Statistics, Sanitation, Vaccination, and Education are dealt with, not only in the Sanitary, Vaccination, and Education Reports, but also in the Municipal Report, and the result is not only that extra labor is thrown on officers, but that these important matters are treated piecemeal, instead of as it seems to the Chief Commissioner that they should be treated, as a whole for each district.

2. The Chief Commissioner accordingly directs that Vital Statistics, Sanitation, Vaccination, and Education in Municipalities shall be dealt with in the annual Sanitary, Vaccination, and Education Reports, respectively, and that these subjects shall only be referred to in the Municipal Reports so far as may be necessary for financial or other collateral purposes, and in connection with such observations of a general nature as may seem to be called for. These orders should be carried out in the case of the Sanitary Report for the calendar year 1889, and the Vaccination, Education, and Municipal Reports for the official year 1889-90, and in future years.

3. I am to add that arrangements should be made to supply the Civil Surgeon of each district with the necessary statistics and information regarding vaccination within municipal areas for incorporation in his Vaccination Report.

ORDER—dated 8th July 1890, No. 492, Public.

Recorded; and communicated to the Departments of the Secretariat.
