NOTE OF REMARKS. 8.8.90

The main estimate
under which amounting
to Rs 2550 provides for
additional and improve-
ments to the Bacterium
Cells in the Fort at
Bellare.

The original estimate
amounted to Rs 2,410
and was sanctioned
by the Supy. Engineer
I Circle. It provided
for better doors and
windows, enlarging
the cells, and making
the roof water tight.

In G.O. No 399 of 6th
July 1890 it was pointed
out that the ventilation
was insufficient and
suggestions were made
to remedy it by means
of ventilators placed
under the eaves of
the roof, or by some
other means.

In the same G.O. -
it was also suggested
that there are at present
Sheds existing which
could be utilized
as Cattle rooms without
further expense, and
that the building shown
in the left hand corner
of the plan between
the two ramps could
be converted into a
barn, this had
been done and the
necessary provisions
made in the E.S. -

The plain & Est. have
been examined
by Mr. Colburn & Magistrate
& appears in the
Judicial Dept. C. R. 5. 90

10th July 1890. The
Supt. Engineer will
apply for in the
yearly any additional
funds required for the
work.

3. This sanction
has been registered
