Note by the Honorable Mr. Garstin C.S.I.

If the estimate is reduced by taking away the upper story and building the whole of the bungalow of brick the estimate might be reduced to $17,000 - 1,466 = 15,534$. This includes an allowance of about 10 per cent for contingencies and establishments. I don't think the plan is a good one but Mr. Watkins has passed it.

Eight per cent on a salary of 950 a month ^{would} be 912 Rs. 46 a month. The estimate has better be revised and cut down to about 12,000 Rs. ^{now} and then we shall have to get the sanction of the Government of India for it.

A

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper

From the Public Works Department dated 23rd July 1901
N^o 509 D., regarding the quarters for the District Surgeon
Anantapur.

Order dated 11th August 1901 N^o 569

The estimates will be returned to the Public
Works Department, with the remark that they should be
reduced to about Rs 12,000 which might apparently be effected
by taking away the upper story and constructing the building
entirely of brick.
