The entries at page 50, part III, of the final issue of the establishment budget estimate for 1890-91 represents the existing permanent establishment of accountants and does not include temporary establishment the pay of which is met from the lump sum grant for temporary establishment.

2. Provision was made in the budget estimate for the existing establishment to reduce the probability of eventual lapses of grant at the end of the year and this should not be considered as the scale of establishment admissible.

3. A reference to the proposal statement sent with my office note No. 4108 dated 10th July 1890 will show what the scale admissible under code rules is, & I beg to state that the establishment applied for is much below the scale admissible.
