8. Officers of Royal Engineers transferred from the Engineer Establishment will continue on the same scale of pay (either Consolidated or Staff) which they were on before their transfer.

9. Officers of the Engineer Establishment brought on to the Managerial Establishment in classes II. and III., in posts to which no special pay is attached, will draw the pay of their grades, and their promotions will go on as if they were employed wholly on their own lists.

10. So far as possible it is intended that the staff now or in future appointed to the different Railways shall remain permanently on the cadres of the Railways as regards appointments up to and including class II. As appointments to class I. will be made under a strict system of selection, it will be necessary, in some cases, to transfer officers from one line to another to fill such appointments.

11. Besides the appointments shewn in the cadres, the post of Traffic Assistant will be attached to the Secretariat of the Government of India, and the officer holding this appointment may be in the 1st or 2nd class. The cost of the post will be charged to Miscellaneous Railway Expenditure.

ORDER.—Ordered, that this Resolution be communicated to the Government of Bengal, the Chief Commissioner of Burma, and the Director General of Railways, for information and guidance, and that it be published in the *Gazette of India*.
