No. 114 P. E.

Camp Janamilli

Dated - 10th July 1890.

2530

From

W. G. de Morgan Esquire

Executive Engineer

Rushikulya Division.

To

The Superintending Engineer

First Circle.

Sir,

With reference to G. O. No. 1552 W.
dated 15th June 1890, which directs that Famine
tools should not be written off, or sold without

Pick axes - - - 600

Sledge hammers 200

Hand hammers - 500

Hammer-ties - - - 3000

Crow bars - - 498

- do - - -

special, long } 379

the sanction Government, I have the honor

to inform you that the marginally noted

Famine tools were supplied by the Superintendent

of P. W. stores for use on works in this Division.

All the above tools are still in use

on the Project works, and may have become

unserviceable.

3 I gather from the G. O. above quoted,

that Famine tools should not be used on

ordinary works, and should be kept in stock

for use in Famine emergency.

4. However, as this Project is a Famine

Protective

Protective work, I am in doubt how far these orders apply to it.

5. Assuming that the order does apply, I have the honor to point out that the number of "ordinary" tools now in the Division, is quite insufficient for the demands.

The number of "ordinary" tools marginally noted.

Pickaxes	---	986
Sledgehammers	---	201
Hand	do	1807
mammoties	---	2617
Brow bars	---	8177

6. There therefore appear to me to be two courses:—

(a) Either to obtain the sanction of Govt. to the use of these tools on the Project Works, debiting their cost, if necessary, to the Project Estimate: or.

(b) To obtain sanction for the purchase of additional tools (marginally noted) for use on the Project works; so that the famine tools now in use may be called in and kept in reserve.

Mammoties	---	3000
Brow bars	---	1000
Hand hammers	---	500
Sledge	do	500
Pick axes	---	600

7. I may here mention that the orders conveyed in G. O. No. 1475 W dated 28th May/90 that contractors should find their own tools, do not apply to this Division. We have no contractors, and petty pieceworkers are not in a position to supply their own tools

tools— a percentage deduction on their bills which I am gradually introducing, is all that can be expected from them. ^{23/11}

I have &c.

/sd/ W. C. de Morgan
Executive Engineer.

No 456 G.N.

Copy forwarded to the Chief Engineer P. W. D. with a recommendation that the tools may be transferred permanently to Tools and Plant for use in the Rushikulya Division for should famine occur again in the Ganjam District, within a reasonable time, famine tools can probably be transferred from other Districts.

No. 4946 C 16.6.90.

To W.

There is apparently no objec -
tion to Government sanctioning the trans -
fer of the tools from famine to ordi -
nary, but the reserve required in the di -
vision to meet famine requirements should
it is thought be considered by the Su -
perintending Engineer and stock of
tools brought up to that limit.

No. 2330 W 29 Aug 1890
OFF. C.

H. J. W. Esq.
The transfer of the tools from famine
to ordinary is sanctioned.
