GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers:—

From the Officiating Under-Secretary to the Government of India, Public Works Department (Account—Civil Works), to the Secretary to the Government of Madras, Public Works Department, dated Simla, the 21st July 1890, No. 192 A.C.W.

With reference to your endorsement, No. 1770 W., Public Works, dated the 26th June 1890, forwarding a copy of indent No. 2 of 1890 for stores required from England, I am directed to point out that no provision appears to have been made in the indent for four-fifths freight payable in England as required under para. 4 of the Secretary of State's despatch No. 100 (Financial), dated 31st March 1887 (*vide* note to Public Works Code, Volume I, Appendix O, para. 21, page clxiv.

Office-note from the Examiner, Public Works Accounts, dated 16th August 1890, No. 4931.

I beg to state that the omission to provide in the indent for four-fifths freight payable in England is apparently due to the indenting officer's attention not being drawn to Public Works Code, Appendix G, para. 10, note (Standing Order No. 272 of 22nd December 1887) and to his not knowing how the freight is to be arrived at.

2. The Director-General of Railways has issued circulars (see No. 6 of 1889 and No. 47 of 1889) giving tables of average sea-freight and English rates for G.-class stores, "Tools and stores," to help in framing indents and filling in freight, and it seems necessary that Government should furnish the General Superintendent, Public Works Stores, with copies of these and similar circulars and instruct him to frame his indents accordingly.

ORDER—dated 29th August 1890, No. 2338 W., Public Works.

Communicated to the Superintending Engineer, V Circle, for the information of the General Superintendent, Public Works Stores.

2. The Superintending Engineer will see that the instructions in Standing Order No. 272 * of 1887 are attended to in future in the preparation of indents.

* Note to para. 10, Appendix G, Public Works Code.

3. Circular from the Director-General of Railways, No. 47, dated 5th December 1889, has already been communicated to the Superintending Engineer, V Circle, and a copy of circular No. 6, dated 29th April 1889, with enclosure, will now be furnished to that officer.

G.O., No. 461 W., dated 12th February 1890.

4. A copy of these Proceedings will be forwarded to the Government of India for information.

I beg to state that the omission to provide in the indent for 4/5th. freight payable in England is apparently due to the indenting officer's attention not being drawn to P.W.Code appendix G, para 10 note (standing order No.272 of 22nd.December 1887)& to his not knowing how the freight is to be arrived at.

2. The Director General of Railways has issued circulars (see No. of 1889 and No.47 of 1889) giving tables of average sea-freight & English rates for G. class stores-"Tools and Stores" to help in framing indents and filling in freight, and it seems necessary that Government should furnish the General Superintendent P.W.Stores with copies of these and similar circulars and instruct him to frame his indents accordingly.
