EXAMINER, P. W. ACCOUNTS.

KEEP-WITH

CURRENT No.

Madras, 2 September 1890.

OFFICE NOTE No. 5238.

dated

189 .

To

W.

Your office note No. 3433 C. dated 18th
August 1890.

Returned with the following re-
marks.

2. Item 2 of the summary. Cheques
drawn but not paid away (in the sense
of Code para 1744 A) on the date of
drawing i.e. before closing the office for
that day, should be entered in register
No. M. 3 a. The Executive Engineer might
be asked to report whether the rules
are so understood by all the officers in
the division having drawing accounts.

3. Item 6. The chief object of keep-
ing the register of works is to have a
watch over the expenditure compared with
the estimate and not simply to facili-
tate the preparation of completion re-
ports. The Executive Engineer might be
asked to report whether the accounts of
the work are now posted into the work
register in detail as required by Code
para 1863 II.

4. Item 7. Para 19 of inspection report. The Executive Engineer might be asked to report when the recovery has been made.

5. Item 9. The Superintending Engineer has not said anything on this. He might be asked to state whether he approved of the procedure.

6. Item 10. There is no rule under which Executive Engineers can pass overpayments. Orders of Government are requested as to whether the charge may be accepted.

7. Item 12. The Executive Engineer might be asked to report when the register is completed.

8. Item 13. Certified copies of vouchers should be retained whenever such documents are required to complete the records of the Executive Engineer's office (code para 1844). If this had been done, the delay in completing the register of works noticed in item 12 would probably not have occurred. No difficulty is experienced apparently in keeping certified copies in other divisions, where there is only 1 clerk allowed to sub-divisional officers. The Executive Engineer might be asked to report whether the rule is now being attended to.

9. Item 14. The Executive Engineer might be asked to report whether the register of contracts is now complete.

2/24/24
10. Item 15. The value of the unused stamped agreements having since been charged off to establishment contingencies under G.O.No.1842 W.dated 4th.July 1890, nothing further is required.

11. Item 17. The Executive Engineer might be instructed to report the matter separately with a view to obtaining fresh copies, if necessary.

12. The other items of the summary call for no remarks.
