GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—again the following papers:—

G.O., dated 26th June 1886, No. 721 L., Local and Municipal.

ABSTRACT.—Sanctioning finally the Local Fund rules under Act V of 1884, and forwarding them to the Translators to Government, for translation into vernaculars.

G.O., dated 27th November 1889, No. 966, Public.

ABSTRACT.—Prescribing rules for the guidance of the new Sanitary Board for the Madras Presidency.

G.O., dated 22nd January 1890, No. 124 M., Local and Municipal.

ABSTRACT.—Ordering the publication in all District Gazettes, in English and in a vernacular language of the district, of the rules framed under section 250 (i) (M) of Act IV of 1884, regarding the passing of estimates for municipal works, and stating that they shall come into force three months from the date of such publication.

G.O., dated 17th May 1890, Mis. No. 1204 L., Local and Municipal.

ABSTRACT.—Considering it unnecessary to make the alterations suggested by the Sanitary Engineer in the rules regarding the authority to which plans and estimates of Local Fund and Municipal drainage and water-supply works costing over Rs. 200 should be sent for approval.

G.O., dated 8th August 1890, No. 1971 L., Local and Municipal.

ABSTRACT.—Issuing certain rules for the guidance of the Sanitary Board in supersession of those issued in G.O., dated 27th November 1889, No. 966, Public.

READ—also the following papers:—

From the Public Works Department, dated 24th June 1890, No. 337-D.

ABSTRACT.—Transferring letter from the Superintending Engineer, VI Circle, dated 13th June 1890, No. 219 M.D., requesting to know whether the terms of G.Os., Nos. 1816 W., 4th August 1885, and 3192 W., 8th November 1889, regarding scrutiny of municipal estimates refer to works costing more than Rs. 1,000, irrespective of their being original or repairs.

From J. A. JONES, Esq., Mem., Inst. C.E., F.R.S.E., Sanitary Engineer to Government, to the Chief Secretary to Government, dated Fort St. George, 4th July 1890, No. 193.

I have the honor to inform you that G.O., of 17th May 1890, Mis. No. 1204 L., appears to have been passed on a misconception of my letter No. 38, of 9th April 1890, and on reading my letter again, I do not think that I have made myself sufficiently plain.

2. What I desired Government to consider was whether there is now, since the appointment of a Sanitary Engineer, any reason for the submission, to the Public Works Department, of sanitary works, plans and estimates. Under the existing rules for the Sanitary Board all such plans and estimates of Rs. 200 and above are required to be sent to the Board for approval, while under the Municipal and Local Fund rules, referred to in my No. 38 already quoted, certain of these estimates must also go to Public Works offices.

3. The Sanitary Engineer Member of the Board is, it is presumed, the adviser of Government in all matters relating to sanitary engineering, and the double reference now required might lead to a conflict of opinion between the Public Works Department on the one hand and the Sanitary Board on the other. Government would, in such case, be placed in the position of having two sets of advisers, each advising differently.

4. It seems to me that Government having a Sanitary Engineer would wish to be advised by that officer on all points of sanitary engineering and it was on these grounds that I desired the alteration of the rules in question.

5. The alterations which I suggest ought to be made are these:—

*Municipal Rules*

(*Vide* G.O., 22nd January 1890, No. 124 M., Local and Municipal).

Rule I.—After "Superintending Engineer" add "or Sanitary Engineer to Government."

Rule II.—For the existing rule read—

"The approval, previous to execution, is necessary by the Sanitary Engineer to Government for all buildings such as markets, slaughter-houses, latrines and for water and drainage works estimated to cost Rs. 200 and over, and from the Superintending Engineer of the circle within whose range the municipality is situated for all other buildings, bridges, &c., estimated to cost Rs. 1,000 and over."

*G.O., 26th June 1886, No. 721 L.F., Financial.*

After the words "for the sanction of Government" (to avoid altering an already complicated rule) I would suggest that there be added—

"All plans and estimates for works of a sanitary nature such as slaughter-houses, markets, latrines and water and drainage works estimated to cost Rs. 200 and over shall be sent for approval to the Sanitary Engineer to Government, Madras, and not to the Superintending Engineer."

The word "drainage," in clauses 1 and 2 of rule 36, to be omitted.

It might, however, be better to redraft the whole of rule 36 if my proposition is accepted.

---

Order—dated 16th August 1890, No. 2055 L., Local and Municipal.

In consequence of the establishment of a Sanitary Board and of the publication of revised rules for its guidance, certain alterations are necessary in the rules previously issued in regard to the execution of works by Local Boards and Municipal Councils.

It is therefore proposed to amend, under section 144 of the Local Boards Act, rule 36 of the Local Fund rules published in G.O., dated 26th June 1886, No. 721 L., as follows:—

(i) In clause 1, line 4, and in clause 3, line 5, omit the word "drainage."

(ii) Add the following clause after clause 3:—

"All plans and estimates for original or repair works of a sanitary nature estimated to exceed Rs. 1,000 in cost shall be sent for approval to the Sanitary Engineer and not to the Superintending Engineer, Public Works Department. In the case of works of a similar nature estimated to cost more than Rs. 200 and not more than Rs. 1,000, the Local Board concerned may also, if it sees fit, consult the Sanitary Engineer in regard to the plans and estimates."

The above amendments will be published in the Fort St. George and the District Gazettes and any objections or suggestions made by persons interested therein will be considered on or after the 1st November next.

2/2442

2. Similar alterations are necessary in the rules for the guidance of Municipal Councils, and the following rules to be substituted for rule 2 of the rules prescribed in G.O., dated 22nd January 1890, No. 124 M., will be published in the Fort St. George and the District Gazettes, for information, under section 256 (1) of the District Municipalities Act. Any objections or suggestions in regard to the proposed rules made by persons interested will be considered on or after the 1st November next:—

RULE.

"2. The approval of the Superintending Engineer of the Public Works Circle, within whose range of superintendence the municipality is situated, must be obtained to plans and estimates of all buildings, bridges and other original masonry works and, generally, original works of a special or unusual character costing more than Rs. 1,000 each, which the Municipal Council proposes to undertake."

"3. All plans and estimates for original or repair works of a sanitary nature estimated to exceed Rs. 1,000 in cost shall be sent for approval to the Sanitary Engineer and not to the Superintending Engineer, Public Works Department. In the case of works of a similar nature estimated to cost more than Rs. 200 and not more than Rs. 1,000, the Municipal Council may also, if it sees fit, consult the Sanitary Engineer in regard to the plans and estimates."

(True Extract.) Major R.E.
for Chief Secretary.

To the Sanitary Board.
" Sanitary Commissioner for Madras.
" Sanitary Engineer.
" Public Works Department.
" Public Department.
" Presidents of all District Boards.
" Chairmen of all Municipal Councils through the Collectors concerned.
