13TH DECEMBER 1889, No. 990, REVENUE.

GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

READ—the following Proceedings of the Board of Revenue (Land Revenue), dated 30th October 1889, No. 6587, Mis. :—

MR. H. W. BLISS.

Read—the following letter from M.R.Ry. M. TILLANAYAGAM PILLAI, Deputy Collector on General Duties, to the Collector of Madura, dated Madura, 25th September 1889, No. 716 :—

I have the honor to report that a Special Revenue Inspector has been allowed to assist me in measuring the land required for the Periyár main and branch channels and settling compensation under Board's Proceedings, No. 1299, * dated 2nd March 1889. The extension of his services for 6 months allowed in Board's Proceedings expires by the end of the next month. His continuance has been found to be absolutely necessary. The magnitude of the work has increased and is likely to continue to increase, I think, for more than a year or until the excavation of the channel is almost completed in the Madura taluk.

2. The number of the Public Works Department officers entrusted with the supervision of the work has increased to five and the work is in progress in about 20 miles. Compensation has been settled for lands taken up for the main channel for about 18 miles in reaches Nos. 1, 2 and 3 and for the branch channel No. 1 and the settlement of compensation has been almost completed for the lands taken up for the 4th reach. The land required for the main channel for about 15 miles and the lands required for the various branch channels, &c., have yet to be marked out by the Public Works Department and measured by the Revenue Inspector in the limits of the Madura taluk. The lines are often changed until the excavation is commenced and the Revenue Inspector has often to give up the land once measured by him and to measure fresh lands as they are required by the Public Works Department. Additional lands on one or both the sides of the channel are often required permanently or temporarily even after the land originally marked out is purchased. The jungle streams and the existing water-courses have been proposed to be diverted permanently or temporarily in various places and applications are often made for the lands required for the diversions and for those required for temporary occupation for depositing materials for masonry works and for tracks for carting materials from quarries, &c., to the sites where masonry works are in progress. Almost every day the services of the Revenue Inspector are applied for measuring some lands or other required for one or other of the purposes above mentioned. Sometimes the fields covered with crops on them are also required and the people are unwilling to allow the use of their cultivated field without compensation for their crop. The Revenue Inspector has to measure these fields and report to me in order that I may see the crop and land and settle

compensation for the same. I must certainly admit that I shall be unable to do all this work without the aid of the Inspector. The progress of the works will be very much retarded if compensation is not settled and the land is not made over to the Public Works Department then and there.

3. It is therefore clear that the services of the Revenue Inspector are indispensable till the excavation of the channel is almost completed and compensation is settled and paid for all the lands with or without crops on them required permanently or for temporary use. The services of an additional Inspector may also be required if the sphere of the work increases. I therefore request that sanction may be obtained for the retention of the Revenue Inspector and his peon for one year more or until his services are required for the settlement of compensation of lands for the Periyar channels, &c.

4. He is allowed a pay of Rs. 30 and as the sphere of his work has increased considerably and he has to attend the calls of various officers of the Public Works Department working in 20 miles, I have recommended in my letter No. 520, dated 5th July 1889, a permanent carriage or travelling allowance of Rs. 15 a month for him from 1st April 1889. The Collector and the Board of Revenue have supported my recommendation and the matter is, I believe, before the Government. I request that sanction may be obtained both for the pay and allowance. In anticipation of the sanction, I shall retain, from the 1st November, the present Inspector, Venkataram Naidoo, who is familiar with the work and has discharged his duties satisfactorily. His peon also will of course have to be retained.

5. I beg to add that I find it almost impossible to get through the preparation of the accounts, the awards, &c., connected with the settlement of the compensation with the limited establishment of this office. The submission of the awards for your sanction and payment of compensation, and submission of vouchers must naturally be delayed to a certain extent for want of a separate clerk for the work. The other works of my office also suffer often by the clerks being engaged on this special duty.

6. I have already submitted to you for sanction awards for payment of compensation of Rs. 14,909-15-4, and the payment of this will necessitate a good deal of additional clerical work in keeping accounts, writing bonds and receipts, &c. Compensation has to be settled for more land, and considering the speed with which the work is being pushed on by the Public Works Department officers, I shall not be surprised if I am not required to settle compensation for a large extent of additional land by the time I complete the payment of the compensation already settled and for which your sanction is awaited. I therefore request that you will be pleased to allow me to entertain, in anticipation of the sanction of Government, a clerk on Rs. 20, from 1st November, by which time I think that the sanction of the awards already submitted to you will be communicated to me. The compensation is settled by private negotiation without having recourse to the enforcement of the provisions of the Land Acquisition Act.

No. 396.

Submitted to the Secretary to the Commissioners of Land Revenue, Madras, with the request that sanction of Government may be obtained for the retention of the Special 1st-class Inspector and the peon for one year more, from 1st November 1889, for reasons set forth by the Deputy Collector.

2. Government sanction to entertain a clerk on Rs. 20 in Deputy Collector's office from 1st November 1889 is earnestly requested owing to the pressing necessity of the work and as the Deputy Collector's staff is already overworked. The awards referred to in paragraph 6 of the Deputy Collector's letter have been sanctioned and the Treasury Deputy Collector requested to place the sum in question at the disposal of the Deputy Collector.

MADURA,
6th October 1889.

(Signed) W. H. WELSH,
Acting Collector.

Resolution—dated 30th October 1889, No. 6587, Mis.

Submitted for the orders of Government.

2. For the reasons advanced by the Deputy Collector, the Board recommend that the Special Revenue Inspector on Rs. 45 and his peon on Rs. 6 be continued for another year or so long as their services are absolutely required. At the same time they beg to draw the attention of Government to the hindrances reported by the Deputy Collector to be caused to the Revenue Inspector's work by the apparently uncertain nature of the places of the Public Works Department.

3. The Deputy Collector says that the compensation work in his own office has increased considerably and that his ordinary establishment is unable to cope with it without prejudice to their other work. He therefore proposes to employ, from 1st November 1889, a clerk on Rs. 20. The Board support this proposal also and submit both for the sanction of Government. They have made necessary provision in the budget submitted with Board's Proceedings, dated 17th October 1889, No. 734.

(A true Copy and Extract.)

Secretary.

To the Secretary to Government, Revenue Department,
with letter in original, to be returned.

Copy to the Collector of Madura.

ORDER—dated 13th December 1889, No. 990, Revenue.

Miscellaneous.

It appears from paragraph 6 of the Deputy Collector's letter that the compensation for the lands taken up is being settled by private negotiation; the Government is of opinion that in cases like the present where there is a large amount of work to be done the acquisition should be made under the provisions of Act X of 1870. The Board of Revenue are requested to issue instructions accordingly.

2. The services of the Special Revenue Inspector and peon will be retained for a further period of six months. The Collector is authorized to entertain temporarily an additional clerk on Rs. 20 per mensem in the Deputy Collector's office.

Land Acquisition Act.

Directing that in cases where there is a large amount of work to be done, the lands required for public purposes should be acquired under the — and sanctioning the extra establishment required for settling compensation for lands acquired for the Periyár main and branch channels in Madura district.

13TH DECEMBER 1889, No. 990, REVENUE.

GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

Read—the following Proceedings of the Board of Revenue (Land Revenue), dated 30th October 1889, No. 6587, Mis. :—

MR. H. W. BLISS.

Read—the following letter from M.R.Ry. M. TILLANAYAGAM PILLAI, Deputy Collector on General Duties, to the Collector of Madura, dated Madura, 25th September 1889, No. 746 :—

I have the honor to report that a Special Revenue Inspector has been allowed to assist me in measuring the land required for the Periyár main and branch channels and settling compensation under Board's Proceedings, No. 1299, * dated 2nd March 1889. The extension of his services for 6 months allowed in Board's Proceedings expires by the end of the next month. His continuance has been found to be absolutely necessary. The magnitude of the work has increased and is likely to continue to increase, I think, for more than a year or until the excavation of the channel is almost completed in the Madura taluk.

2. The number of the Public Works Department officers entrusted with the supervision of the work has increased to five and the work is in progress in about 20 miles. Compensation has been settled for lands taken up for the main channel for about 18 miles in reaches Nos. 1, 2 and 3 and for the branch channel No. 1 and the settlement of compensation has been almost completed for the lands taken up for the 4th reach. The land required for the main channel for about 15 miles and the lands required for the various branch channels, &c., have yet to be marked out by the Public Works Department and measured by the Revenue Inspector in the limits of the Madura taluk. The lines are often changed until the excavation is commenced and the Revenue Inspector has often to give up the land once measured by him and to measure fresh lands as they are required by the Public Works Department. Additional lands on one or both the sides of the channel are often required permanently or temporarily even after the land originally marked out is purchased. The jungle streams and the existing water-courses have been proposed to be diverted permanently or temporarily in various places and applications are often made for the lands required for the diversions and for those required for temporary occupation for depositing materials for masonry works and for tracks for carting materials from quarries, &c., to the sites where masonry works are in progress. Almost every day the services of the Revenue Inspector are applied for measuring some lands or other required for one or other of the purposes above mentioned. Sometimes the fields covered with crops on them are also required and the people are unwilling to allow the use of their cultivated field without compensation for their crop. The Revenue Inspector has to measure these fields and report to me in order that I may see the crop and land and settle

compensation for the same. I must certainly admit that I shall be unable to do all this work without the aid of the Inspector. The progress of the works will be very much retarded if compensation is not settled and the land is not made over to the Public Works Department then and there.

3. It is therefore clear that the services of the Revenue Inspector are indispensable till the excavation of the channel is almost completed and compensation is settled and paid for all the lands with or without crops on them required permanently or for temporary use. The services of an additional Inspector may also be required if the sphere of the work increases. I therefore request that sanction may be obtained for the retention of the Revenue Inspector and his peon for one year more or until his services are required for the settlement of compensation of lands for the Periyar channels, &c.

4. He is allowed a pay of Rs. 30 and as the sphere of his work has increased considerably and he has to attend the calls of various officers of the Public Works Department working in 20 miles, I have recommended in my letter No. 520, dated 5th July 1889, a permanent carriage or travelling allowance of Rs. 15 a month for him from 1st April 1889. The Collector and the Board of Revenue have supported my recommendation and the matter is, I believe, before the Government. I request that sanction may be obtained both for the pay and allowance. In anticipation of the sanction, I shall retain, from the 1st November, the present Inspector, Venkataram Naidoo, who is familiar with the work and has discharged his duties satisfactorily. His peon also will of course have to be retained.

5. I beg to add that I find it almost impossible to get through the preparation of the accounts, the awards, &c., connected with the settlement of the compensation with the limited establishment of this office. The submission of the awards for your sanction and payment of compensation, and submission of vouchers must naturally be delayed to a certain extent for want of a separate clerk for the work. The other works of my office also suffer often by the clerks being engaged on this special duty.

6. I have already submitted to you for sanction awards for payment of compensation of Rs. 14,909-15-4, and the payment of this will necessitate a good deal of additional clerical work in keeping accounts, writing bonds and receipts, &c. Compensation has to be settled for more land, and considering the speed with which the work is being pushed on by the Public Works Department officers, I shall not be surprised if I am not required to settle compensation for a large extent of additional land by the time I complete the payment of the compensation already settled and for which your sanction is awaited. I therefore request that you will be pleased to allow me to entertain, in anticipation of the sanction of Government, a clerk on Rs. 20, from 1st November, by which time I think that the sanction of the awards already submitted to you will be communicated to me. The compensation is settled by private negotiation without having recourse to the enforcement of the provisions of the Land Acquisition Act.

No. 396.

Submitted to the Secretary to the Commissioners of Land Revenue, Madras, with the request that sanction of Government may be obtained for the retention of the Special 1st-class Inspector and the peon for one year more, from 1st November 1889, for reasons set forth by the Deputy Collector.

2. Government sanction to entertain a clerk on Rs. 20 in Deputy Collector's office from 1st November 1889 is earnestly requested owing to the pressing necessity of the work and as the Deputy Collector's staff is already overworked. The awards referred to in paragraph 6 of the Deputy Collector's letter have been sanctioned and the Treasury Deputy Collector requested to place the sum in question at the disposal of the Deputy Collector.
