No. 228

MADRAS MEDICAL COLLEGE,
15 August 1890.

From

THE PRINCIPAL,
MEDICAL COLLEGE,

2567

To

THE Director of Public Instruction
Madras

SIR,

I have the honor to reply to Proceedings N° 8277 dated 8th August 1890, communicating Official Memorandum from Government dated 6th idem, regarding the provision of a room for the Principal's office in the College.

2. Before the erection of the Histological Laboratory sanctioned in G. O. dated 17th May 1872 N° 1252 W. Public Works, the office was located in the same room with the Principal and opportunity was taken to remove the inconvenience caused while the additions sanctioned in 1872 were in progress. It was decided to place the office at the end of the Laboratory nearest to the Principal's room with a wooden partition between, no separate provision being possible at the time.

This arrangement has continued, but the Professor of Histology has recently urged upon the Principal's notice the desirability of giving up to him the Laboratory in its entirety, on the ground that the present accommodation is insufficient for his large class. The Professor also complains of the discomfort caused by want of free ventilation in the Laboratory during histological investigations. He requests that the wooden partition be removed and thus the whole space made available for his class from the beginning of next Session.

3. I may be permitted to add that prior to the preparation of Plan and Estimate for a new office, the Laboratory in which the present office is located, was inspected by the Consulting Architect to Government in company with Dr. Porter Dr. Brockman and Dr. Lithorpe, when the necessity of vacating the Laboratory and providing separate accommodation for office was discussed and decided.

4. The addition of an Assistant Clerk to the Principal's office and the growing records of the College, render impossible the location of the office in the Principals' room, to say nothing of the inconvenience and undesirability of such an arrangement.

5. I request, therefore, that Government will be pleased to sanction the Plans and Estimate for an office already submitted.

I have the honor to be,
Sir
Your most obed[t] Serv[t]

MADRAS MEDICAL COLLEGE,

1st August 1890.

From

THE PRINCIPAL,

MEDICAL COLLEGE,

To

THE Director of Public Instruction

Madras

SIR,

In continuation of this office letter No. 187 15.7.90, I have the honor to state that the Professor of Histology desires that the Histological Laboratory in which the Principal's office is now located, should be placed entirely at his disposal from the beginning of next Session. Although according to para 4 of the then consulting Architects' letter to you, enclosed in G.O. No. 1252 W. Pub. Works, dated 17 May 1884, the provision of a separate room for the Principal's office would seem to have been contemplated, yet only a portion of the Laboratory was assigned for the office with a high wooden partition between. This partition, Dr. Brockman urges, should be removed so as to render the whole space available for his class from October next, as he considers

the present accommodation altogether insufficient for histological investigations. I enclose his letter No. 1 / 23.4.90 for your information and favor of return -

2. In these circumstances I request that you will be so good as to obtain very early sanction to the construction of an Office, the plans and estimate for which were submitted on the 15th ultimo.

I have the honor to be,
Sir,
Your most obedient

Dr. Ritchie
Surgeon Major
Principal Med. College.

Current No. 8615

Letter No. 4161

Dated 8th September 1890

From the Educational Dept.

Sanction 4405 16.9.90

NOTE OF REMARKS.

The plans & estimates mentioned, this letter recommending Rs 3,110 provide for constructing a room, with a covered way leading to it from the Principals room, to accommodate the Office of the Principal of the Medical College at Madras -

It is explained in the letter from the Director of Public Instruction dated 28 August that the Office is located in a portion of the Physiological Laboratory which could be required for other purposes if this Laboratory -

The dimensions proposed for the Office Room are 28'6" x 16'3" - The room is to be on the 2nd floor & will be

constructed with Nos 1 bricks in mortar plastered white inside & pink outside, so as to be in keeping with the rest of the building. The roof is to be terraced & the floor cemented & plastered over 1½" of concrete -

The difference in rate between Stock bricks & country bricks is Rs 21-8-0 against Rs 17-0-0 but as the quantity is small, little more than the difference in the amount would be charged for Rs 60 only worth while discussing any change -

The covered compound which is to be 29½ x 23½ is to be walled on one side and protected by fixed screens on the other sides - The roof will consist of canvas with single cotton punkah & bamboo rafters -

Public Inspection & Contingencies have been provided for at 7½ & 5% respectively -

The plans & Est. have been Countersigned by the Director of Public Instruction in the Educational Dept.

OFFICE OF THE DIRECTOR OF PUBLIC INSTRUCTION,

Madras, 29th July 1890.

No. 7854.

From D. Duncan, Esq., M.A., D.Sc.,

~~H. B. GRIGG, Esq., M.A., C.I.E.,~~

Acting DIRECTOR OF PUBLIC INSTRUCTION,

Madras,

To

The Honble the Chief Secretary
to Government
Fort St. George.

SIR,

I have the honor to submit for sanction & transfer to the Public Works Department, Plans & Estimate amounting to Rupees 3,110 for constructing an Office-room urgently required for the Medical College. The present Office is now held in a portion of the Physiological Laboratory and should be given up as the beginning of next session, as it is required for the improved of

of the Laboratory. I beg to request that sanction be accorded for the work being carried out as early as possible during the current year.

I have the honour to be

OFFICE OF THE DIRECTOR OF
PUBLIC INSTRUCTION,
Madras, 23rd August 1890.

No. 8842.

From D Duncan, Esq., M.A., D.Sc.,
~~H. B. GRIGG, Esq., M.A., C.I.E.,~~
Acting DIRECTOR OF PUBLIC INSTRUCTION,
Madras,

To
The Honble the Chief Secretary
to Government,
Fort St. George.

SIR,

With regard to Reference on No. 842 of 1890 dy 6th Instant, calling for further information as to the circumstances which have rendered necessary the building of an office for the Medical College, I have the honour to forward a letter from the Principal dy 15th Instant, No. 228, giving the required information.

2. I visited the Medical College yesterday evening in

accompanying with the Principal,
in order, before addressing
Government, to see for myself
how matters stand at present.
The histological or physiological
laboratory was built on to the
end of the Principal's room, a
door opening from the one to
the other. The temptation was,
therefore, very strong to appro-
priate the end of the laboratory
nearest the Principal's room
as a room for the Clerk and
Bill records. And the
permanent Professor of
Physiology, were on the spot
he would probably have
protested against this diversion
of a part of his laboratory
from its original purpose.
But he was in Europe at the
time, although since his

return he has never ceased
complaining of the mis-
appropriation of the laboratory
it has not been practicable to
remedy matters owing to
the difficulty of finding
accommodation elsewhere
for the Office.

3 Two points are
quite clear to me. First, the
laboratory should forthwith
be given up entirely to the
purpose for which it was
built, the whole space
being urgently required, if the
practical instruction is to be
efficiently carried on. Second,
the Bill, with its yearly
increasing records & two clerks,
cannot be accommodated
again in the Principal's room.
The highly objectionable
nature of that arrangement

was allotted the New Principal (most unwisely I think) to appropriate a part of the Laboratory. Besides the consideration that the Principal's room is not large enough for himself & two Clerks — with all the appurtenances of the Office, there is the further & more important one that it deprives the Principal of a room in which he can meet the Professors, Students, or others in private. It would be impossible for the Principal to carry on much of his duties, as are of a more or less private & confidential character, in the presence & hearing of his Clerks.

11. I made enquiries on the spot as to the letter

any other room could be handed over to the Clerks, but found there was none.

5 I trust that these explanations will satisfy the Government that the additional room is absolutely necessary for the efficient working of the College.

I have the honour to be,
Sir,
Your most obedient Servant

D Duncan
Acting Director of
Public Instruction.
