No 1867.

From.

W. Joseph Coquere

Contract Engineer

Eastern Division Boston.

To

The Collector Boston

Dated 14th }
Despatch 15th } July 1891.

Enclosures

Sir,

Referring to your endorsement No 4651 of 7-9-90 in Board's Proceedings No 3851 of 11-6-90, I have the honor to inform you that the Bullock is auctioned for No 2715 and built in the year 1887 for the Sydenham ferry was not found unsuitable from its size but its shape. Please refer to G.O. No 2585 W of 27-9-87.

2. The ferry boat now estimated for is on the same lines as that now lying below the arched at Buzwada and not on those of the boat built for the Sydenham ferry in 1887 at a cost of No 2715. Its length of keel is 55 ft against a length of keel of 44 ft in the old boat built for Sydenham Ferry.
3. The increased length as also the fact that sound Godaverri teak cannot be now obtained

is lower than Burmah teak, will sufficiently explain
of the estimate now resubmitted over that for
circular ferry boat built for No 2715.

I have &c

(sd) W. Joseph

Executive Engineer

From

J. D. C. Wolfe Murray Esq.

Ag Collector Histone D.

To

The Secy to the Commissioners of Land Revenue
Madras.

For.

I have the honor to submit for sanction a revised
estimate for No 4486 received from the Executive Engineer,
Coastal Division, for the reconstruction of the ballroom
for the Sepaher Ferry.

2. The original estimate for No 3515 was sanctioned in
G.O. dated 21st November 1887, No 7108, communicated
with Board's Proceedings No 4,989 Mis. dated 8th December
1887, but the work has not been commenced yet.

3. The necessity for the increased amount in the
revised estimate is explained by the Executive Engineer
in his comparative statement enclosed.

4. The amount can be met from the provisions of
No 6000 in the current year's Canal and Ferry
Fund Budget under construction and repair of
boats.

I have requested the Executive Engineer to
the work at once pending sanction to the
estimate now submitted.

Proceedings of the Board of Revenue
Land Revenue

Dated 11th June 1890 H^o 3651 M^o.

M^o H. A. Whitfield

2/8/3

Read letter from the Collector of Hissna dated 27th May 1890.

Resolution.

The Board observes that the boat constructed in
1886 and subsequently found unusable on account of its
cost only Rs 2715, and considers the present estimate amounting
to Rs 4486 to be excessive. The explanation of the increase
over the estimate sanctioned in 1887 does not seem adequate
and the Executive Engineer should be asked whether it
cannot be reduced.

(True copy)

To The Collector of Hissna
with 2 encs etc.
