26th August 1890, No. 195 S.E.

I have the honor to submit a special indent for English stores urgently required
for use in the division :—

Item No. 1.—The supply of rails already received has been used up and in use.
The quantity now indented for is wanted for use in the tunnel.

Items Nos. 2 and 3, Packing rings.—These were among the reserve parts
received with the tunnelling plant and are being used up. It is desirable to have some
spare rings in stock.

Item No. 4.—This is required for replacing the belting originally received with
the tunnel turbine machinery which is giving way. Gandy's cotton belting is in
store or being procured, but this may not answer.

Items Nos. 5 and 6.—These are required for the Incline Tramway from right bank
escape. It is essential to run the trucks in trains for which the present rope is not
strong enough.

earnestly request that they may be ordered to be sent at the earliest possible date.
