OFFICE OF THE SUPERINTENDING ENGINEER,
6TH CIRCLE.

Trichinopoly 6th Sept. 1890

No. 532

From Lieut Col A.C. Smith R.E.
The Superintending Engineer,
6th Circle.

To
The Chief Engineer
P.W.D.

Sir,

ENCLOSURES.

With reference to your reminder dated 3rd instant to G.O. No. 1436 W of the 21st May 1890, on the Executive Engineer's, Madura Division, & the several points noticed in the Summary of the Inspection Report of the Division, I have the honor to observe that the only item that requires further report from the Executive Engineer is about famine tools - vide clause (7) para 1 of the Executive's office note and Item 21 of the Summary.

2 The Executive in the clause above quoted suggests that the Executive

Engineer

Engineer might be asked to report
further when all tools have been counted
and brought on the return from the
Executive Engineers
Letter dated 5th August 1890 in 285 S.E
it is observed that the Famine Tools
at the Several Stations were counted
and checked by the list sent to the Collector
for his countersignature in approval
of the count made by the P.W. Officers.
The list approved by the Collector, (which
was promised by the Executive Engineer)
has not yet been received in this Office
but it is believed that the Tools, as
counted by this department, will be
brought on the next return of
the Division due in November 1890
3. The other items in the Examiner's
note do not appear to call for any
report or explanation of the Executive
Engineer

Name the honor &c &c)
Sir
Your most obt servant

Al Smith Lieut Colr
Supg Engineer 6 Circle
