READ—the following paper :—

From Brigadier-General E. H. EYRE, Quartermaster-General, Madras Army, to the Secretary to Government, Military Department, dated Ootacamund, 15th September 1892, No. 1867 M.W.

With reference to Proceedings of the Madras Government No. 4109 of 24th July 1891, sanctioning an estimate, amounting to Rs. 7,000, for constructing quarters for an apothecary at West Hill, Calicut, for the execution of which work an allotment is made in the current financial year's budget estimate, I am desired to state, for the information of Government, that the Officer Commanding Calicut and the Executive Engineer, West Coast division, report that apothecary's quarters already exist, but were misappropriated as officer's quarters and that what is actually required is the provision of suitable accommodation for the Medical officer, who is at present in occupation of the apothecary's quarters—an arrangement which necessitates this subordinate's living far away from the hospital.

2. On receipt of the above report in this office, the General Officer Commanding Southern District was requested to call upon the local Public Works authorities to prepare an estimate for the carrying out of the project now shown to be necessary in view to its submission to Government, and, in the meantime, he was directed to cause steps to be taken for the work of the construction of quarters for the apothecary at West Hill being held in abeyance. The General Officer Commanding, however, apparently at the request of the local Public Works authorities, asks, with reference to Proceedings of Government (Public Works) No. 1787 W. of 15th June 1892, which was not previously communicated to this office by Government, that its sanction be obtained to the preparation of the estimate in question. I am accordingly to desire that this sanction may now be accorded and that Government may be pleased to approve of the current year's budget allotment for the apothecary's quarters being devoted to the construction of the Medical officer's quarters, both of which items are expected to cost about the same amount.

3. I am to take this opportunity of inquiring whether, with reference to the above order, the calls for the preparation of plans and estimates for all major works should in future emanate from Government, or whether, as heretofore, General Officers Commanding may, under the orders of the Commander-in-Chief, call upon Superintending Engineers at stations in this Presidency still under the control of the Public Works Department to prepare plans and estimates for such works as may from time to time be considered necessary. In any case it is presumed the instructions above referred to will not apply to projects for minor works costing less than Rs. 2,500.

DING Quarters. Officers

QUARTER MASTER GENERAL'S OFFICE,

Ootacamund,

15th September 1892.

No. 1867 M.W.

is requested that the heading, number, and date of this communication may be quoted in any subsequent correspondence on this subject.

From

BRIGADIER-GENERAL E. H. EYRE,

QUARTER MASTER GENERAL,

To

THE SECRETARY TO GOVERNMENT,

MILITARY DEPARTMENT.

SIR,

With reference to P.M.G. No. 4109 of 24th July 1891, sanctioning an estimate amounting to Rs. 15,000 for constructing quarters for an apothecary at West Hill Calicut for the execution of which work an allotment is made in the current financial year's Budget Estimates, I am desired to state for the information of Government that the Officer commanding Calicut and the Executive Engineer West Coast Division report, that Apothecary's quarters already exist, but were misappropriated as Officers quarters and that what is actually required is the provision of suitable accommodation for the Medical Officer, who is at present in occupation of the Apothecary's quarters, an arrangement which necessitates this subordinate's living far away from the Hospital.

2 On receipt of the above report in this office, the General Officer commanding Southern District was requested to call upon the local Public Works Authorities to prepare an estimate for the carrying out of the project

now shown to be necessary, in view of its submission to Government and in the meantime he was directed to cause steps to be taken for the work of the construction of quarters for the Apothecary at West Hall being held in abeyance. The General Officer Commanding however apparently at the request of the local Public Works Authorities, asked, with reference to P.W. (Public Works) No. 1787 W of 15th June 1892 which was not previously communicated to this office by Government, that also sanction be obtained to the preparation of the estimate in question. I am accordingly to desire that this sanction may now be accorded and that Government may be pleased to approve of the current year's Budget Allotments for the Apothecary's quarters being devoted to the construction of the Medical Officer's quarters both of which items are expected to cost about the same amount.

3. I am to take this opportunity of enquiring whether with reference to the above order, the call for the preparation of plans and estimates for all Major Works should in future emanate from Government, or whether, as heretofore General Officers Commanding may under the orders of the Commander-in-Chief call upon Superintending Engineers at Stations in the Presidency still under the control of the Public Works Department to prepare plans and estimates for such works as may from time to time be considered necessary. In any case it is presumed the instructions above referred to will not apply to

projects

projects for minor works costing less than Rs: 2500.
