Letter from the Executive Engineer
Megapalam Division to the
Supt. Engineer Circular No. 3845
dated 6th Dec 1889 -

27/12

I have the honor to inform
you that the sub-division office
quarters at Sicutuapam will
probably be ready for occupation
on 1st April next.

2. The present sub-divisional office
is a native sub Engineer 3rd Grade
who will of course not occupy
the building as a residence - the Govt.
Government may possibly compel
him to pay the rent, although
ostensibly the sanction to the con-
struction of the quarters was given
on the understanding that they
would be occupied by Europeans
and in this connection, I beg to
invite attention to G.O. No. 900 dated
23rd April 1885 -

3. The Sub Engineer's salary with
sub-division allowance is Rs 280
a month - 8 per cent of which

monthly rent reasonable from him.
The cost of his residence, including
20 per cent for tools & plant and
establishment comes to Rs 7,195.

The rent expected by Government
is 7 per cent of this or Rs 42 per
month.

4. In April next, the quarters for
the Sub divisional Officer at Man-
nagudi will probably be commenced
and finished in six months. To
this subdivision also a native
has recently been appointed.

5. I consider it my duty in the
interests of Government, to bring
these facts to notice, as unoccu-
pied houses very soon fall
into disrepair.

6. It is noticed also that Mr.
Gopal Krishna Iyer who will
probably be appointed to the
Mannagudi Sub division owns
land there.

No 202278

VN

Copy submitted to the Chief
Engineer MWD for orders.

In G.O. No 960A of 23rd April/85
sanction to the construction of the
quarters was certainly refused on
the ground that it was not far from
impossible that native Assistant
Engineers or subordinates might be
posted to the stations in which
case, the residence, if provided
would probably be unoccupied.
On this Col. Mead R.E., then then
Suptg. Engineer, strongly recommended
again the construction of the quarters,
stating that native Assistant
Engineers had great difficulty in
procuring decent accommodation
at the stations & that they would
gladly occupy the residence if
provided. This recommendation
was then approved by Government
in their order No 288A of 2nd February/86
and the quarters were sanctioned
by the Government of India in
their letter, printed in G.O. No 632A
of 9th March/86. It would thus
appear that the quarters in question
were originally intended for foot
& native sub division

officers. Any native assistant
superior or subordinate posted
as sub division officer to the
stations in question should therefore
be made to occupy the residences.

3. Independently of the above
and as a general question the
undersigned is of opinion that
native sub division officers
occupying public quarters should
certainly be treated in the same
way as European sub divisions
officers, as they draw the same
pay - In fact it would appear
that all officers above the grade
of Supervisor, whether European
or native, should be made to
occupy public quarters pro-
vided for them & pay the pre-
scribed rent under para 1042
of the P.W. Code -

W. Smith L. G. C. R.
Suptg. Engineer

I agree but I think the
question of providing a house
at Munnayudi which
is not yet commenced
should be reconsidered. Is
it in the budget of 90-1?
L.E. says it is to be commenced
in April. I don't believe it will
be started. Yes
