With reference to your No. 865 G.D. of 30th July 1890, on G.O. No. 1931 W. of 17th July 1890, I have the honor to state that no orders have been passed by Government on the question raised in para. 2 of your No. 566 G.D. of 21st June 1890, as to whether there should be any change in the percentages charged according to G.O. No. 371 I. of 25th May 1886.

2. As the establishment of Dowlaishweram workshops, repairs to buildings, machinery, &c., will be charged to Provincial from 1st April 1891, I think delta and other works \* should be charged 12½ per cent. † on this account in addition to 2 per cent. for general charges from next official year.

\* Other than "Provincial."  
† This will cover direct and indirect charges of the shops.

3. Orders on the subject are requested.

No. 1073 G.D.

Copy submitted to the Chief Engineer, Public Works Department, for orders. The proposals of the Executive Engineer as regards the future percentage charges seem fair.

To W.

I think it would simplify matters  
all round, if Government were to lay down  
a general rule for all sub-divisional  
workshops that no debit is to be rais-  
ed on account of percentages for works  
executed for the P.W. Department but that  
as regard works for other departments &  
private parties, a uniform rate of 25  
per cent should be charged.

2. If the above suggestions are are  
adopted, they would be in accordance with  
the arrangements in force in Railway  
workshops for which please see Govern-  
ment of India Code volume III, chapter  
VII, paras 4 to 6.

3. The distribution of general  
charges, over works in hand, may be left  
to the Executive Engineer who may fix a  
all percentage subject to the

Superintending Engineer's approval.  
Please see para 2 of G.O. No. 371 I. of  
25th May 1886.
