SUPERINTENDING ENGINEER'S OFFICE,

V Circle, Madras,

Chennai, 9 May 1890

From

L. M. Clarke R.E.

To

Off. SUPERINTENDING ENGINEER, V CIRCLE,
The Chief Engineer
P.W. Department,

SIR,

Enclosures.

With reference to S.O. No. 17157,
dated 27 June 1887, I have
the honor to submit a copy
of the Statement B sent in
by the General Superintendent
P.W. Stores, showing the
actual result of reducing
the prices of certain articles
of stock regarded as surplus
in 1887-88 in order to effect
a ready sale.

From this Statement it will
be seen that between the 1st
April 1887 and the close of
the financial year 1888-89
there has been an actual
loss

loss sustained by Government
to the amount of Rs 1152-3-11
which loss has been duly
adjusted by being debited
to the Sub Head Civil
Buildings under the authority
of the Examiners P.W. Accounts.

Now that the total value
of the Reserve & Surplus
Stock (Statement A)
has been reduced to
within the prescribed
limit of Rs 150,000; I am
of opinion, that it would
be advisable to do away
altogether with the term "Surplus"
Stock and to show all the
Stock now in the P.W. Stores
as Reserve - for there is no
further necessity for under
selling the Articles
as

as in the year 1887-88.

The Superintending Engineer has based his report on the balance of March 1889 and it seems a waste of time to discuss the matter on that basis. I would suggest that Superintending Engineer be asked to report on the basis of the stock balance at end of March 1890, which he should be able to do immediately.

OFFICE NOTE No. 1084.

To

The figures given by the Super-
intending Engineer in his report on the
stock balance at end of March 1890 have
been checked and found correct.

2. With reference to the Superin-
tending Engineer's proposal, in his let-
ter No. 884 dated 9th. May 1890 reporting
on the balance at end of March 1889, that
the term "surplus stores" should be
done away with and that all the stock
in the Division should be treated as
"reserve stock" as there was no further
need for underselling the articles as
in 1887-88, I would beg to point out that
if the stores to the extent reported
viz 49,605 are surplus, in the code sense
of the term i.e. if they are not requir-
ed for use during the following 12
months (see code para 1719), they should
be disposed of if possible.

3. In the P.W. Stores Division, the
surplus stores have been in stock for
several years and unless there is now
some prospect of their being used with-
