OFFICE OF THE SUPERINTENDING ENGINEER,
6TH CIRCLE.

Trichinopoly 10 October 1890.
D-13

No. 6597N.

From Lt. Col. A. C. Smith R.E.

The Superintending Engineer,

6th Circle.

To

The Chief Engineer

D. P. W.

Sir,

ENCLOSURES.

With reference to your memorandum No. 1813 C of the 11th April 190, regarding the Government buildings in the Travancore territory, I have the honor to state that a list of the Government buildings in the above territory, now in charge of the West Coast Division, has been received from the Superintending Engineer, 4th Circle, with an intimation that the buildings may be brought on the return of this circle.

2. The list comprises Christ Church at Trivendram, St. Thomas Church at Quilon, and Submagistrate's Quarters and Sub Jail at Panga Cheery, under

Provincial, Post offices and Post masters residences at Allepy, and Cottayam is under Imperial, Civil Buildings, and the Native Infantry Buildings at Quilon under Imperial Military.

3. The Superintending Engineer states that funds should be paid to the Chief Engineer, Travencore, from the Divisional Grant for the maintenance of the military buildings, roads etc treating that officer as an imprest holder, and that the Executive Engineer West Coast Division and the Superintending Engineer make periodical inspections on behalf of this Government of works in progress, also that this duty, he presumes, will devolve on me and my officers when the transfer of the buildings has been made into my Register. This officer also states, in reply to my query on the point, that the existing arrangement has, in no way, proved inconvenient to his officers or to the departments concerned.

4. On reconsideration of the matter, I fail to see the advantage that is to be gained by disturbing the existing arrangement, which appears to work well and without any inconvenience

to any of the departments concerned.

V G G
I am also of opinion that the periodic inspections of works in progress can be easily and conveniently made by officers of the 4th Circle, than by those of this circle.

5. I request therefore that the existing arrangement be allowed to remain undisturbed. It matters very little whether the buildings are borne in the Register of the 4th Circle, so long as they are not altogether left unnoticed. When the first reference on the subject ^{was made} in N^o 1077 T.N. of 15th March 190, it was not known that the buildings mentioned by the Executive Engineer were borne in the Return of the 4th Circle.

I have the honor to be
Sir

Your most obedient servant
Aldrich Esq
Superintending Eng^r W Circle
