To W.

I beg to forward herewith a statement showing the balance of grant available for expenditure in the next four months of the current official year.

2. As far as I can judge from actuals of the current year and from experience of previous years the revenue is likely to be approximately as follows:-

1 Imperial Military Works..Rs. 2,500

2 Provincial Civil Works..Rs.90,000

3 Incorporated Local.....Rs. 2,000

These figures have been arrived at by calculating the percentages borne by the average actuals of the first five months of each of the preceding three years to the average actual totals of those three years and then applying these percentages to the actuals of the first five months of the current official year.
