Note

Recently
H. S. the Govt. inspected
the piece of land adjoining
the Medical College, &
~~located~~ by the railway
& the road from the Hospital
along the dirt to the RR
Station, in company with
L. W. W. from, & myself
G. L. Manning, architect & Mr.
Dorwin - he was of opinion
that the site was well
adapted to the building of
a new hospital & children's
hospital, but before finally
deciding that the site was
suitable, he will have some
to the conclusion that it is the
best for Mr. Dorwin the Consulting
Architect to make a sketch
of the site & to deposit on it
the approximate positions
of the blocks of buildings the
house has to be built &
their probable size with
reference to the site. He is
also of the opinion that
the buildings should face
South & be long to the S.
with the entrance of the main hospital

buildings, with
 on Echelon - I was
 also, located out to W
 down that the limits of
 the site might be some
 extent, by one the line
 forming running road
 the front on 2 sides,
 so as to enclose a ^{strip} ~~strip~~
 of 18 or 20 feet wide
 between the said railing &
 the ~~road~~ edge of the road,
 in case the area within
 the ~~fencing~~ is found too
 contracted.
