3. In the final issue of the Imperial Civil works budget estimate for 1890-91, a sum of Rs. 5,000 was provided for constructing a telegraph office at Guntakal in the Bellary district, and the Superintending Engineer, III Circle, was ordered to expedite submission of plans and estimates for the work. The Executive Engineer, Bellary division, then prepared an estimate for Rs. 14,300 which he forwarded to the Superintendent of Telegraphs, Madras division, for countersignature and return. That officer, however, in his letter, No. 807, dated 12th May 1890, stated that the Southern Mahratta Railway Company had offered to construct the telegraph office, and that he had therefore retained the estimate pending the decision of the Government of India. As no orders have yet been received from the Government of India, the Superintending Engineer, III Circle, surrenders the current year's grant of Rs. 5,000 for the work in question, and this amount, together with Rs. 1,225, being the percentage charges for establishment and tools and plant, will, therefore, be resumed and replaced at the disposal of the Director-General of Telegraphs.

4. Ordered that a copy of these Proceedings be forwarded to the Government of India, Public Works Department, for information.
