REVENUE DEPARTMENT.

Read—the following Proceedings of the Board of Revenue (Separate Revenue), dated 9th October 1890, No. 3042, Mis. :—

C. S. Crole, Esq.

Read—the following letter from G. McWATTERS, Esq., M.A., C.S., Collector of Sea Customs, Madras, to the Secretary to the Commissioner of Salt, Abkári and Separate Revenue, dated 2nd September 1890, No. 1993-G.:—

I have the honor to request that the Board will be pleased to obtain the early sanction of Government to the accompanying revised plans and estimates for enlarging and rendering more secure the accommodation in the Custom House for dutiable goods. Rs. 10,000 are provided for the work in the current year. The present accommodation is very unsatisfactory and the ground for endless complaints, as casks of wine and beer have to lie in the open for days without any protection from the sun or weather. The figures entered in the margin will explain how the two sheds available for dutiable goods and which may have sufficed in former years are utterly inadequate now, and it has to be remembered that space has also now to be provided for Colombo arrack. The first idea was to roof in a portion only of the space between the two existing sheds so as simply to secure protection from both sun and rain, but after inspecting the place with the Assistant Engineer the revised plan was adopted, which makes one large well-lighted and well-ventilated building of the two existing sheds and space between and extending the full length of the customs yard.

Imports of Ale, Beer and Porter since 1883.

1883-84.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.

This arrangement will provide sufficient accommodation as well as covered protection and will prevent access, except when the gates are open and under guard. At present any person might climb over into the dutiable goods sheds and thefts, I am afraid, are not uncommon.

Read—the following reference thereon, dated 22nd September 1890.

The Collector is requested to state where the provision of Rs. 10,000 referred to in his letter is made, as it does not appear in the civil works budget for 1890-91.

2. The plan of the Custom House showing the position of the proposed new shed is returned for the Collector's countersignature with reference to paragraph 988 of the the Public Works Code.
