GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers :—

From Colonel W. H. BURTON, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Chepâk, 16th September 1890, No. 2839.

I have the honor to submit for early sanction a revised estimate (in the shape of comparative statement) of Rs. 12,782 for setting up steam machinery in the Government Press, Madras,* in lieu of the original estimate of Rs. 11,015 sanctioned in G.O., No. 2143 W., dated 9th August 1889.

* At the Old Mint.

2. The excess is due to various causes as explained in the statement.

3. The General Superintendent, Public Works Workshops, reports that the work is very nearly completed, and it is surmised that, by the end of the current month, all the Printing Presses will be worked by steam power.

From L. L. WICKHAM, Esq., General Superintendent, Public Works Workshops, to the Superintending Engineer, V Circle, dated Madras, 29th October 1890, No. 1977 W.

With reference to your endorsement No. 3169, dated 7th October 1890, I have the honor to resubmit herewith the "Revised" estimate for the setting up of the steam machinery in the Government Press duly corrected, agreeably to the Chief Engineer's memo. No. 3919 C., dated 29th September 1890.

2. The revised estimate as now submitted, viz., Rs. 17,042, exceeds the original estimate by Rs. 6,027.

The causes of this excess are—

	Rs.
Extra cost of engine and boiler imported from England	2,450
Do. other items of estimate for reasons given in the remarks column	1,934
Total ...	4,384
General charges, 10 per cent.	438
	4,822
Workshops additional charges, 25 per cent	1,205
Total excess as above ...	6,027

3. The reason why in the revised estimate as submitted by Col. S. C. Clarke, R.E., the Workshops centage of 25 per cent. was altogether omitted, and the original provision therefore shown as a saving, is that Colonel S. C. Clarke, R.E., deemed it expedient *not* to enhance the *cost* of the work by debiting it with their book charges upon the view that it was a Public Works Department work being carried out by the Public Works Workshops.

4. Similarly Colonel S. C. Clarke, R.E, deemed it correct *not* to charge for general charges the usual percentage (10 per cent.) upon the cost of all the items of the estimate. Holding this view he provided on this account only Rs. 387, being 10 per cent. upon the cost of items 22 to 31 and the cost of the fittings of items 32 and 33, and showed the balance of the original provision for general charges as a saving.

No. 3678.

Copy forwarded to the Chief Engineer, Public Works Department, for information with reference to his memo. No. 3919 C., dated 29th September 1890.

2. The estimate returned with the above memorandum is resubmitted for sanction.

(Signed) W. H. BURTON, Col., R.E.,
Superintending Engineer, V Circle.

6th November 1890.

Note by the Chief Engineer, Public Works Department.

The excess expenditure in providing steam power to work the machinery in the Government Press amounts to Rs. 6,027 made up as follows:—

		Rs.
(1)	8 H. P. engine ... ... / 10 H. P. boiler	2,450
(2)	Workshop percentage	1,643
(3)	Extra work	1,934

Item (1) was under-estimated, (3) is due to unavoidable differences between the work as estimated and actually carried out, (2) represents the increases in the percentages charged by the Workshop.

The price of the engine and boiler should have been ascertained with some accuracy before the estimate was framed, and at all events before the indent was sent to England.

It is extremely difficult to estimate for the remainder of work under consideration, and the explanation given in the comparative statement is considered satisfactory.

The Workshop percentages which amount altogether to Rs. 4,647 on the total estimate of Rs. 17,042 are merely a book transaction, and the Workshop is scarcely entitled to charge any percentage on the cost of the engine and boiler, except a small sum for agency; but in the present case the undersigned recommends that the revised estimate be sanctioned without alteration.

(Signed) J. PENNYCUICK, Colonel, R.E.,
Chief Engineer, P.W.D.

15th November 1890.

ORDER—dated 24th November 1890, No. 3123 W., Public Works.

The revised estimate, amounting to Rs. 17,042, for providing and setting up steam machinery in the Government Press, Madras, is sanctioned in supersession of the estimate of Rs. 11,015 sanctioned in G.O., No. 2143 W., dated 9th August 1889.

From Colonel W. H. Burton R.E
SUPERINTENDING ENGINEER,
V CIRCLE,

To
THE Chief Engineer
P. W. Department.

SIR,

Enclosures. 1 Estimate in the shape of Comparative statement.

I have the honour to submit for early sanction a revised estimate (in the shape of Comparative statement) of Rs 12,782 for setting up steam Machinery in the Government Press Madras in lieu of the Original Estimate of Rs 11015 sanctioned in G.O No 2143 W dated 9th August 1889.

The Excess is due to various Causes as explained in the statement.

The General Superintendent P.W.D. reports that the work is very nearly completed and it is surmised that by the end of the current month all the Printing Presses will be worked by steam power.

To

The Superintending Engineer

V. Circle.

Sir,

With reference to your Endorsement No. 3169 dated 7th October 1890, I have the honor to resubmit herewith the "Revised" Estimate for the setting up of the steam machinery in the Government Press duly corrected, agreeably to the Chief Engineers memo No. 3919 C dated 29th September 1890.

Enclosure 1

2. The Revised Estimate as now submitted viz Rs. 17942 exceeds the original Estimate by Rs 6027.

The causes of this excess are :—

	Rs
Extra cost of Engine and Boiles imported from England	2450
Do. other items of Estimate for reasons given in the remarks Column	1934
Total Rs.	4384
General Charges 10. Per cent	438
	4822
Workshops additional charges 25 pc.	1205
Total excess as above.	6027

The

3. The reason why in the Revised Estimate as submitted by Colonel S. C. Clarke R.E, the workshops centage of 25 Per cent was altogether omitted, and the original provision therefore shewn as a saving, is that Colonel S. C. Clarke R.E deemed it expedient not to enhance the cost of the work by debiting it with their Book charges upon the view that it was a Public Works Department work being Carried out by the Public Works Workshops.

4. Similarly Colonel S.C Clarke R.E deemed it Correct not to charge for General charges the usual per centage (10 %) upon the cost of all the items of the Estimate. Holding this view he provided on this account only Rs 387 being 10 % upon the cost of items 22 to 31 and the cost of the fittings of items 32 & 33, and shewed the balance of the original provision for general charges as a saving.

I have &c.

P.W. Department.

38 3123/6

Note by the Chief Engineer, P.W. Department, dated 7 November 1890.

The excess expenditure in providing steam power to work the machinery in the Government Press amounts of Rs 6027 made up as follows:—

1 { 8 H.P Engine / 10 H.P Boiles } Rs 2450
2 Workshop percentage " 1643
3 Extra Work — " 1934.

Item 1/ was underestimated 1/3 is due to unavoidable differences between the work as estimated and actually carried out, 1/2 represents the increase in the percentages charged by the Workshop.

The price of the Engines and boiles should have been ascertained with some accuracy before the estimate was framed, and at all events before the indent was sent to England. It is extremely difficult

remainder
to estimate for the ~~[illegible]~~ of
work under consideration,
and the explanation given
in the comparative statement
is considered satisfactory.
The workshop percentages
which amount altogether
to Rs 4647 on the total
estimate of Rs 17,042 are
merely a book transaction,
and the workshop is scarcely
entitled to charge any
percentage on the cost of
the Engine and boiler,
except a small sum for
[illegible] in the present
case the undersigned
recommends that the
revised estimate be
sanctioned without alteration.

NOTE OF REMARKS.

The revised Estimate
has been revised amounting
to Rs 17,042 for working the
Govt. presses by Steam
power is submitted
for Sanction in supersession
of the Est. for Rs 11,05 Sanctioned
in G. O. No 2143 M dated 9th August
1889.

The Excess viz Rs 6024
is principally due to
the increased cost of
the Engine & boiler
and to the addition
of General charges
& Workshop Centage.
The two latter items
were omitted in the
previous Est. have
now been added
with reference to the
Govt Memo No 3919C
dated 29th September 1890.

The rates are the
same as those given

in the Sanctioned Estt:
many large discrepancies
are made in the Estt:
which cannot be checked
Please call explanation
from the Executive
Superintendent for work-
shops regarding the
division of castings
in the previous
Estt:- Letter No 1977 IV
dt 29th Sept 1890 in file.

Engr
11.11.90

Note by E.M.

The excess expenditure
in providing steam
power & working the
machinery in the
Government press, amounts
~~to~~ ~~Rs~~ 6027 made up
as follows.

1 { 8 H.P. Engine / 10 H.P. Boiler } Rs 2450

2 Workshops percentage Rs 1643

3 Existing work Rs 1934

Items (1) were under estimated,
(3) is due to unavoidable
differences between the
work as estimated & actually
carried out & (2) represents
the increase in the percentages
charged by the Workshops.

The price of the Engine &
boiler should have been
ascertained with some
accuracy before the estimate
was framed & advertisements before
the indent was sent to England.

It is extremely difficult
& extravagant for the class

to estimate for the remainder

If work under consideration and the expenditure given in the comparative statement is considered satisfactory.

The workshop percentages which amount altogether to Rs 4647 on the total expenditure estimated Rs 17042 are merely a book transaction, & the workshops is scarcely entitled to charge any percentage on the cost of the Engine & Boiler, except a small sum for agency; both matters in the immediate present case.

The undersigned recommends that the revised estimate be sanctioned without alteration.
