GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

Read—the following paper:—

From J. D. GRANT, Esq., Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Dowlaishweram, 27th November 1889, No. 1138-G.N.

I have the honor to submit herewith an application for modification of allotments connected with the estate works in the Ganjam division, and to request that you will be so good as to obtain the sanction of the Court of Wards to the same. The Division Officer's letter No. 13/3, dated the 16th November 1889, with which the application has been received, is herewith enclosed. It will be observed from this letter that the surrenders proposed are due to almost all the subordinates having been employed on famine works.

2. With reference to para. 2 of the Executive Engineer's letter above quoted, I shall inform him that there is no objection to works being carried out in excess of modification of allotments now proposed and payments made in the next official year—*vide* G.O., No. 1975 W., dated 3rd July 1888.

Enclosure.

From A. M. FOORD, Esq., Executive Engineer, Ganjam division, to the Superintending Engineer, I Circle, dated Berhampore, 16th November 1889, No. 13/3.

I have the honor to forward herewith an application for additional or modification of allotments on estate works, and to inform that I have reduced my grants, in most cases, to the extent of sanctioned estimates in hand, as it will be too late hereafter to frame estimates, get them sanctioned and worked out before the end of the official year.

2. As the whole of the executive establishment has been fully engaged on famine works since June, they have been unable to keep their current work to date.

3. I request your sanction to go on with work in excess of grants entered if I am able to get in the estimates and to make payments for them in the next year.

Order—dated 7th January 1890, No. 31 W., Public Works.

With his letter above recorded the Superintending Engineer, I Circle, submits an application for modifications of allotments for estate works in the Ganjam division involving a net reduction of Rs. 73,700. The Court of Wards will be requested to approve of the proposed redistribution of grants, and a sum of Rs. 90,651, inclusive of the percentage charge for establishment, will be replaced at its disposal.

2. The large surrender of funds is regrettable, but arrangements are being made to provide a special establishment to complete the estimates for estate works in the Ganjam district.

3. With reference to para. 2 of the Superintending Engineer's letter, it is remarked that G.O., No. 1975 W., dated 3rd July 1888, only authorises the Public Works Department to incur expenditure in April, May and June against the allotments for the ensuing fasli year, but does not empower Executive Engineers to incur outlay in excess of allotment for the official year. In consideration, however, of the large grants now surrendered, the Executive Engineer may be informed that there is no objection to expenditure being incurred during the current official year in excess of the grants now reduced.
