CHIEF ENGINEER FOR IRRIGATION.

Madras,

19/11 1890

OFFICE NOTE.

No 244

Circulation Register.

To	From	Despatch Date.	Receipt Date.
W	S		

KEEP-WITH.

No. dated 18

(1) Please send para 219 of the V.C. Code, I think, and I trust you will agree with us, that in lines 3 para 34 the words "Administrators and" should be inserted before "Executive Officers"; the transfer or posting of a Superintending Engineer is of great moment to this branch—

(2) I would also strongly urge that in the Code in which the Chief E. for Agric. has to be consulted he should

be given the opportunity
of seeing the written proposals
about to be made and
the documents which
are to accompany them.
It is then given an
opportunity of expressing his
views & if he considers
such a course necessary
before the proposals are
in order. It is also
very advisable on the ground
of there being some record
of his having been consulted,
without such a record
misunderstandings are
sure to occur & soon
or later from lapses of
memory.

By the transfer of Major
Campbell from the territories
to the 5th Brigade which I
see in the Gazette this
morning has led to this
note. The idea was
certainly mentioned to me
some time ago and I
made no objection but
I certainly supposed
that I should have an
opportunity of seeing
the proposals and
expressing my opinions
on them before they
were definitely settled.

Government of Madras.

PUBLIC WORKS DEPARTMENT.

Madras, 21st Nov^r 1890.

OFFICE NOTE.

From W

To S

your office note no 244
of 19th instant.

I see no objection at all
to the insertion of the words
you propose in para 219
of the Code, or to what
would perhaps be a
better plan, the omission
of the word "executive".

The only thing I see
against it is that it
is unnecessary, at any
rate for the present, and
should invariably
consult you before
proposing any alterations.

In the particular case
in question I had dis-
-cussed the matter
with you and under-
-stood you to concur
in my view. It did
not occur to me that
you wished for any further
discussion, or I should
certainly have asked for
a further expression of
your opinion, without
any reference to the
provisions of a particular
para of the Code.

Note For rules

It has been long
to return that from
219 of the Code
renders it incumbent
on the Chief Engineer
to consult his
superior as regards the
proper of execution
thereof, and that
such consultation is
equally desirable with
regard to administration
thereof.

It is difficult on
this point to take
issue at present, but
it is conceivable that
under certain conditions
differently might be
wise, and the Chief
Engineer for Navigation
therefore suggests that

In the particular case

Your office note 4813
21/11/90-

(1) Yes, I think the
occurrence of the word
"hesitant" the better
way of dealing with
the matter -

(2) I quite think the
alteration is necessary
under present circumstances
but the time must
come when the project
Secretary arrangements
being changed the
alteration might prove

Desires standing
and therefore I would
recommend to being
made -
