Letter from the Colonial Secretary, Ceylon,
No. 98 of 6 December 1890.

FOR ORDERS.

The undersigned
considers that it would
be worth while to pur-
chase one set of the
machinery in question,
with ^{two} rock drills
and a proportion of
accessories, for use at
the Periyar.

2. The failure of the
water supply during
the present season and
the defects which have
been found in the
turbine which drives
the machinery have

retda

advised progress on the
tunnel so much that
unless measures can be
adapted for working
from both ends it is
not incredible that
the completion of the
work may be delayed
on this account.

3. The undersigned
was only working till
after his next inspection
of the works to recommend
the purchase of additional
machinery and the
present proposal comes
most opportunely as the
makers are the same as
those of the machinery
already in use.

4. It is proposed that the
Ceylon Govt. be asked the
price at which they are
willing to dispose of the
machinery in question,
and if this ^{be} reasonable,
that it be purchased.
