C.B.M. 3390/1

I think the papers on this file should be sent to Mr Mac Bride, Colombia & printed "to be returned" should be attached & we do commit that we mean in our remarks.

I commit from the sections of the whole boring of the Kootenay — if this is forth-coming in Section, it should be sent, making 4 Lots of sections in all.

The papers just rec'd seem very clearly what we have done, but there seems to have been a great gap between C.O. 357 I of 2nd June 90 (the bottom paper in the connected file) and the commencement of all boring operations on 25th in the prospecting parties. At Tombstone Mr Moss Bride had sent back the details of the Government wells (French) there in the College of Engineers here, but as I expected the correspondence was incorrect. There is no covering letter with the despatch of these papers, as Mr Moss Bride left Bombay on Xmas day & will not be in Cape for some weeks I believe; so if the full returns of the shallow boring can be found, please put it up. All the returns should be marked for return

If these papers should advise our sending Mr Moss Bride in addition to the men noted in my former note, I think we should have them all that we can trust him.
