READ—the following papers:—

From Brigadier-General M. PROTHEROE, C.B., C.S.I., Quartermaster-General,
to the Secretary to Government, Military Department, dated Ootacamund,
29th November 1889, No. 1465, Barrack.

I am desired to bring to the notice of Government that the old Native Detail Hospital at Wellington being close to the Roman Catholic School, it was represented that the scholars might contract infectious diseases from its proximity. The Roman Catholic Chaplain consequently applied for sanction to erect a new hospital on a site further removed from the school, at his own expense, in lieu of, and in all respects similar to, the old one, he being permitted to retain the former site as well as the materials of the old building.

2. From some misconception, however, of the orders issued by this office, the new building was constructed before permission was given to its erection.

3. I am to ask therefore that the transfer of this new hospital to Government may be sanctioned, and the application of the Roman Catholic Chaplain for the retention of site, and the materials of the old building, approved.

4. The Standing Barrack Committee, Wellington, report that the new hospital is in all respects equal to the old, and the site selected free from all objections; moreover the medical authorities consider that the removal of the hospital from the vicinity of the school is desirable, as any disease amongst the scholars might be communicated to the troops.

From Major D. McNEIL CAMPBELL, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Ootacamund, 26th January 1890, No. 30 E.W.

Adverting to your endorsement No. 5797 of 10th December 1889, herewith returned, I have the honor to state there appears to be no objection in complying with the request of the Quartermaster-General to sanction the transfer of the new Detail Hospital erected by the Roman Catholic Chaplain to Government and for the retention of the site and materials of the old building by the Chaplain.
