Office of the Consulting Architect to Govt.,
Chopank, Madras,
23rd January 1890.

No. 1547

From

Henry Swin, Esq., C.I.E.,

Consulting Architect

to the Government of Madras,

To

The Chief Engineer

Public Works Department

In,

Enclosures.

With reference to your endorsement No. 4000 dated 22 January 1890 on letter from the Joint Secretary, Victoria Hospital dated 20 January 1890, I have the honor to state that the charges referred to are in accordance with the Code of Regulations of the P. W. Department.

"Petty Superintendence of 2½ percent" is a sub-head of the Estimate, and the salaries of masons, carpenters, pullers & watchmen &c employed in connection with work are charged to it. vide Chapter VII para 935 P. W. Code.

"Contingencies at 5 percent" is also a sub-head to meet unforeseen items of work. vide Chapter VII para 936 P. W. Code.

Public Works supervision at 5 percent is the cost of P. W. Establishment such as

Architect, Engineer & other subordinate permanent establishment engaged on the work, as well as the accounts establishment, also for use of tools and plant. The charge laid down by P. W. Code is 23 + 1/2 percent for the above but in this case the Government have reduced it to 5 percent. vide Chapter FI paras 1339, 1342, 1485 & 1487 P. W. Code.

The Government order of June 18th 1888 No. 1805 W para 3 makes the special concessions and it would appear that only the equivalent of cost of such permanent establishment as would be actually employed in executing the work (or in fact the Sub Divisional Officer & his staff) was calculated and apparently the architectural work of designing and supervising as well as the work of accounts establishment was intended to be given gratis.

I have the honor to be

Sir

Your Most Obedient Servant

Secretary Engineer
Consulting Architect

The Chief Engineer
Public Works Department

Sir,

I am directed by the Managing Committee of the Victoria Hospital for male and female women to request, with reference to the estimates for the construction of the Hospital in the Cheypank compound, that you will be so good as to explain fully for their information, the following items of charge -

1. Petty supervision - 2 1/2 per cent
2. Contingencies - 5 percent
3. Public Works supervision 5 percent

Making a total charge of 12 1/2 per cent on the estimated cost of construction.

His Excellency the President and Members of the Hospital Committee desire this information in detail in connexion with G.O. No. 1805 W of the 18th June 1888, which states that the contribution on account of Public works establishment will be fixed at 5 percent on the estimate or about the equivalent of what will actually have to be paid for petty establishment."

I have the honor to be

Sir
Your Obedt Servant

V. Krishnamachari
Joint Secretary

No 400. C d / 22nd Jan. 190

Public Works Department.

From

THE CONSULTING ARCHITECT

TO THE GOVERNMENT OF MADRAS,

To

THE Chief Engineer
P. W. D.

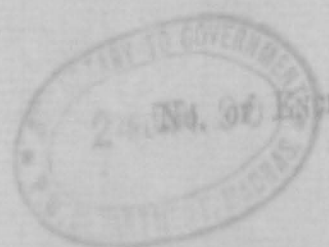

No. 1547

Dated

23rd

Received

24th January 1890.

Subject.

Explaining the charges of
City Supervisors' contingencies
the estimate for Victoria
Hospital for fuel & oil

No. 3657 of 26-12-89

" 3354 of 26-11-89

" 2423 of 9-8-88

" 1833 of 10-7-89

" 1805 of 18-6-88

Under ordinary
circumstances the
Committee would
have been charged
24½ per cent upon
the total of the
estimate; & the
estimate has been
increased 2½
per cent for petty expenses
& contingencies respectively.
Under the C.O. is

question 5 per cent
only has been charged
in lieu of 24½.

The case is similar to
that of the M.F.O.
Hospital, which institution
is charged 15 per cent.

I think the Committee
should be informed
that the charge is
in accordance with
the C.O. & P.W.D.
practice.

Dur

For orders.

The working of para
3 of G.O. No. 1805 of 17

18.6.88 makes it
appear that the in-
tention was to charge
the Hospital Committee
only the 5% usually
included in estimates
for petty supervision.

The order was based
on a pencil note
written by the Hon.
Mr. Butler on the
Committee's letter of
12 June 1888.

In addition 15%
for P.W. Supervision.
The Committee have been
actually been charged
2 1/2% for petty super-
vision & 5% for con-
tingencies.

Cls

24.1.90

P.W. Department

Read the following.

Letter from the Joint Secy. Victoria Hospital
Committee of 20 January 1890.

Letter from the Consulting Architect to Govt.
No. 1527 of 23 January 1890.

For Orders.

In para 3 of G.O. No.
1805 of 17 June 1888, it was
stated that the Contingencies
now to be paid by the
Victoria Hospital Com-
mittee on account of the
P.W. Establishment em-
ployed in the construction
of the building will be
fixed at 5 percent on the
estimate, or about the
equivalent of what is
actually now to be paid
for petty establishment.

1. In addition to this
change of 5 percent, the
estimate makes provision
for 2 1/2 percent on account
of petty establishment and
5 percent for contingencies.
2. The Committee ask to be
furnished with full ex-
planation of these items.

4. The explanation is given in the Consulting Architect's letter.

Under ordinary circumstances the Committee would have been charged $24\frac{1}{2}$ percent for P.W. establishment and tools and plant, on the total of the estimate, and the estimate would have included $2\frac{1}{2}$ and 5 percent for petty establishment and contingencies. The five percent charge added by the Co. as matter of grace is in lieu of the $24\frac{1}{2}$ percent.

The case is somewhat similar to that of the Military Female Orphan Asylum, which institution is charged 15 percent on the value of work done for it by the No. Deptt, irrespective of the provision in the estimates for petty supervision and contingencies.

Proposed to communicate the Consulting Architect's letter to the Hospital Committee, and inform them that the rates are in accordance with

with the intention of the G.O. of 1888 and with the Department practice.

W.C.W.
29.1.90
Quill 29.1.90
W.

Yes. I presume that in the final adjustment of the work the actuals under petty supervision & contingencies will be accounted for against the $2\frac{1}{2}$ & 5 percent.
