GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

**Buildings and Roads.**
**Civil Works.**

READ—the following papers:—

From H. M. WINTERBOTHAM, Esq., Collector of Malabar, to the Superintending Engineer, IV Circle, dated Calicut, 8th October 1889, No. 3226-P.

In reply to your letter (enclosures returned herewith), dated 4th September 1889, No. 241-M., I have the honor to state that a reconstruction of the buildings lately occupied as the Sub-Collector's office, on the same plan, cannot be recommended. They were merely used as a temporary make-shift and were very inconvenient. The site is an excellent one for the Sub-Collector's office, and proper buildings will, I have no doubt, be eventually erected upon it. It is specially necessary that a spacious and commodious room should be provided for a court to which the public may have reasonable access. This cannot be got by repairing or reconstructing the old edifice.

2. The accommodation enjoyed by the Sub-Collector and his staff in the old jail is by no means all that could be wished, but it is sufficient to prevent the want of an office being felt as a pressing matter. I therefore think that the old buildings should be entirely razed, as the first step to building a commodious and handsome court and offices, as soon as funds are available.

3. The house of the Sub-Collector alluded to in His Excellency's minute is entirely separate and distinct from the old office buildings.

Executive Engineer's Office,

No. 452 WEST COAST DIVISION,

CALICUT 3 September 188 7.

FROM Col. A. T. Innes R.E. a/c

EXECUTIVE ENGINEER,

WEST COAST DIVISION.

TO

Superintending Engineer

4th Circle.

SIR,

ENCLOSURE.

I have the honor to state in reply to your No. 470 F.C. of the 28th August 1887, that no transactions relating to the Brannen property in question took place in my time; I have but little to give from personal knowledge of them.

2. What is to be gathered, is, taking heads in order—

(1) The building (House and back wing attached) was occupied as the Sub Collector's Office, Tellicherry, after purchase in 1883.

(2) The ruinous portion being part of a private house of old construction and in a very mountsituation, the timber as happens

on

on this coast, decayed, and nothing short of taking the roof off, & putting in new wood work, would arrest this process. The Superintending Engineer apparently decided this was not to be done, as the Jail was fitted up for the Sub Collector's Office, the reason being that the Executive Engineer considered the old walls unsafe -

(3) Para 5 of my No. 438 gave a recommendation for restoring the premises, which the Sub Coll Offices now estimate would cost £4360, What I said was, "The laterite in clay walls to be chunamed as far as the basement, the latter raised about a foot and the walls rebuilt in the same manner, using some new stone, as necessary with the old, and all the old doors and windows, adding a few clerestory windows, and roofing with new wood work and Mission tiles." I consider this restoration, from what I saw, practicable.

(4) When the Jail was fitted in 1888, the Sub Collector, reluctantly I understand, vacated the Brennen Office, the roof of the wing of which was then dismantled with approval of the Superintending Engineer to prevent accidents.

3. What it was influenced Government to fit up the Jail in the Fort as the Sub Collector's Office, and the Superintending Engineer to give no instructions beyond taking off the old roof, I have no means of knowing, but suppose that financial exigencies prevented all idea of going so far, as to rebuild the ruined wing, the accommodation besides not being wanted for any purpose -

I have the honor to be

The Superintending Engineer
4th Circle.

SIR,

ENCLOSURE.

I have the honor to state
in reply to your No. 410 W.C. of the 17th
July 1889, that this part of the
Brennen property was purchased
under Government order 361 of
1st February 1883 with the House &
out offices in the Fort now occupied
by the Sub Collector as a residence.

2. It consists of a two storied —
building tiled & in fair preservation
a set of rooms attached by an inter-
mediate verandah, & used by the
Sub Collector as an office till the
roof threatened to fall in, & a piece
of enclosed ground about 120 ft
by

by

by 150 ft with a range of stalling &c.

3. The premises are close adjoining, but on a much lower level than the Sub Collectors House & its grounds.

4. It was considered at the time unsafe to re-roof & financial exigencies no doubt contributed to the place remaining in its present state.

5. I have again referred to the Revenue Department to ascertain if there is enough accommodation for the Sub Collectors office supposing the back wing restored - & should this be the case would recommend the Interior clay walls to be dismantled so far as the basement, the latter faced about a foot of the walls rebuilt in the same manner

using some new stone as necessary with the old, & all the old doors & windows, adding a few Clerestory windows, & roofing with new woodwork & mission tiles.

Sir,

Letter No. 380, dy 11th July 1889 with 1 Encl:
Letter No. 438 of 21-8-89
" No. 453 of 31-8-89.

I forwarding the accompanying original letters to be obliginging returned, I have the honor to request you will be good enough to state your opinion as to whether under the circumstances brought to notice in these letters it is advisable to sell the building lately occupied as Sub Collector's office at Tellicherry.

2. If the building is required for any Government Departments it can be restored to habitable condition at a cost of Rs 4360.

3.

3. In a Minute dated 23d October 1883, His Excellency the Governor remarked as follows:-

"The house of the Sub Collector at Tellicherry belongs to Government and is in the most delightful situation imaginable. Just however at this point of the Coast, the sea is encroaching rather seriously and it may be necessary, before another monsoon breaks to prop the surface of the building."

4. Accordingly some protective works were carried out in the following year.
