6TH FEBRUARY 1890, No. 400 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Military Works.

READ—the following papers:—

From Colonel W. H. BURTON, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Chépák, 9th September 1889, No. 3820.

With reference to G.O., No. 1762 W., dated 4th July 1889, I have the honor to state that there is no means of materially reducing the estimate for providing accommodation for two companies of Native Infantry in the Vellore Fort, as none of the items provided for in the estimate are non-essential.

2. The District Surgeon reports, after a personal inspection of the buildings, "I consider there is no sanitary objection to the proposed arrangements for troops in the Vellore Fort, provided the necessary ventilation, as shown in the plan, is fully carried out." To this it should be added that the courtyard is already paved and well drained by an opening in the south-west corner into a masonry underground drain leading to the Fort ditch.

3. The District Surgeon suggests, as a further improvement, the opening of two doorways—one on the north and the other on the east side, in addition to the present entrance, and also the provision of "eaves" instead of the proposed "ridge" ventilation. The additional entrances cannot be provided except at considerable expense. The Deputy Surgeon-General, Her Majesty's Forces, is in favor of ridge ventilation as sanctioned and no deviation in this direction will be made.

From Brigadier-General M. PROTHEROE, C.B., C.S.I., Quartermaster-General, Madras Army, to the Secretary to Government, Military Department, dated Ootacamund, 22nd October 1889, No. 3706 A.

In returning Reference Order No. 6462, of the 21st September 1889, I am directed to say that His Excellency the Commander-in-Chief concurs in the views of the Superintending Engineer, V Circle, and in the opinion expressed by the Deputy Surgeon-General, Her Majesty's Forces, Madras District, viz., that the ridge ventilation should be carried out in the quarters to be provided for the Madras Infantry in the Fort at Vellore as originally proposed.

No. 7311, Military.

Transferred and the referred papers returned to the Public Works Department.

FORT ST. GEORGE,
25th October 1889.

(Signed) H. R. SHELLEY,
for Secretary to Government.

ORDER—dated 6th February 1890, No. 400 W., Public Works.

These papers dispose of the observations of the Government of India in paras. 2 and 3 of its letter recorded with G.O., No. 1762 W., dated 4th July 1889. In the circumstances stated, the work may be carried out as estimated for, as soon as the buildings are made available by the Civil department.

The Chief Engineer

P.W. Department.

SIR,

Enclosures.

With reference to G.O. No. 1762 W, dated 4 July 1889, I have the honor to state that there is no means of materially reducing the estimate for providing accommodation for two Companies of Native Infantry in the Vellore Fort, as none of the items provided for in the estimate are non-essential.

2. The District Surgeon reports after a personal inspection of the buildings "I consider there is no sanitary objection to the proposed arrangements for troops in the Vellore Fort provided the necessary ventilation as shown in the Plan is fully carried out." To this it should be added that the court yard is already paved and well drained by an opening in the South West corner into a masonry underground drain, leading to the Fort ditch.

The

The District Surgeon suggests as a further improvement, the opening of two doorways one on the North and the other on the East side, in addition to the present entrance and also the provision of "canes" instead of the proposed "ridge" ventilation. The additional entrances cannot be provided except at considerable expense. The Deputy Surgeon General Her Majesty's Forces is in favor of Ridge ventilation as sanctioned and no deviation in this direction will be made.
