11th February 1890, No. 445-W., Public Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Read—the following papers:—

G.O., dated 29th January 1890, No. 635, Revenue.

Read—the following Proceedings of the Board of Revenue (Land Revenue), dated 21st December 1889, Mis. No. 7820:—

Mr. H. W. Bliss.

Read—the following letter from W. A. WILLOCK, Esq., Acting Collector, Vizagapatam District, to the Secretary to the Commissioners of Land Revenue, dated Vizagapatam, 29th November 1889, No. 3687:—

I have the honor to forward the plans and estimates noted in the margin, received from the Superintending Engineer, I Circle, for the construction of a Deputy Tahsildar's cutcherry and Sub-jail at Srungavarapukota. The estimate amounts to Rs. 8,690. Copy of the Superintending Engineer's letter is enclosed.

1 Plan of cutcherry.
1 „ of out-houses.
1 Site-plan.
1 Estimate abstract.
1 „ „ general.

2. The preparation of the estimate was ordered in G.O., dated 31st July 1884, No. 1862 W., Public Works, and the necessity for the work was fully explained in Mr. Turner's letter recorded therein.

3. The plan of the new building is in accordance with the standard design except in that it provides extra accommodation for the Sub-treasury. The Deputy Tahsildar at Srungavarapukota is in independent charge and there is a Sub-treasury at the station.

4. I request that the Board may be pleased to obtain the sanction of Government to the plans and estimates.

Resolution—dated 21st December 1889, Mis. No. 7820.

The plans and estimates for constructing a new office for the Deputy Tahsildar at Srungavarapukota, at a cost of Rs. 8,690, are submitted for the sanction of Government and the provision of funds in the budget of the Public Works Department.

2. The estimates were called for so far back as July 1884 (endorsement of the Revenue Department, dated 24th July 1884, No. 3177) on a representation from the Collector, Mr. Turner, that the existing building was in a dangerous state of disrepair, that all the walls had cracked badly, and that there was no use in repairing it.

(True Extract.)

(Signed) M. HAMMICK,
Secretary.

Order—dated 29th January 1890, No. 635, Revenue.

Approved and transferred to the Public Works Department.

2. It is observed that provision is made for an out-house consisting of a cook-room and a store-room for the use apparently of the jail inmates. As such an out-house would seem to be a necessity, the Public Works Department will be requested to state why no provision for it is made in the standard design.

(True Extract.)

(Signed) C. A. GALTON,
Secretary to Government.

Note by the Chief Engineer, General, Buildings and Roads Branch.

With reference to the inquiry in the Revenue Department, it is remarked that the list of out-buildings to be provided for Revenue buildings, such as the one under consideration, was laid down in G.O., No. 1014 W., dated 20th April 1874, and that the revised plan of the out-buildings was issued with G.O., No. 1409 W., dated 28th May 1889. In any case no type-design appears necessary for a store-room as this can always be provided by increasing the length of the cook-room building.

CHEPÂK, (Signed) R. R. E. DRAKE-BROCKMAN, Lt.-Col., R.E.,
6th February 1890. Chief Engineer, P.W.D.

ORDER—dated 11th February 1890, No. 445 W., Public Works.

The estimate, amounting to Rs. 8,690, for constructing a Deputy Tahsildar's office and Sub-jail at Srungavarapukota in the Vizagapatam district is sanctioned for execution when funds are available.

2. The attention of the Revenue Department will be invited to the note by the Chief Engineer above recorded.

3. This sanction has been registered as Provincial No. 112 W. of 1889-90, and classified as Civil Buildings, Original Works.

Letter from the Assistant Engineer Vizagaptam
to the Executive Engineer Vizagapatam Division
No: 55 dated 7th March 1885

Referring to your No: 1678 dated the 3rd January 1885, I beg to report that when I inspected on the 11th November/80 the Sub jail of the Taluk Cutcherry at Srungavarapucotta to see if it was repairable and submit an estim for the necessary repairs to it, I found the walls all badly cracked and in dangerous Condition. I examined the basement of the walls at the time; and I found there fissures in it and nothing very serious in it to drive me at once to conclude that there was something wrong in the foundations, the result of which was the bad crack in the walls. On Examining the walls I found they had been also badly built; and so I concluded that the bad cracks in the walls were on account of bad construction. And I then made an estimate for pulling down these walls to the top of basement and reconstruct them again of Stone in Chunam (the old walls having be also of stone [illegible]) [illegible] then afterwards when they were [illegible]nstructed and examined them on the 15th February 1881. I found the walls were well re-built; the mortar used was of good quality. If there had been nothing wrong with the old foundations and in fact with the ground on which the building stands, these recon-structed walls should not have presented any cracks at all (especially the walls being only about 10 or 11 feet in height) which they did when I saw them again in June 1884. Further other buildings standing on the same ground and in the neighbourhood of the Taluq Cutcherry are also very badly cracked. I see serious cracks from ~~the~~ top of walls running right through basement and foundations. Under these circumstances I concluded that there must be something wrong with the old foundations and in the ground itself on which the buildings stand & therefore I recommend that the buildings and the site be abandoned altogether and new one built on a different site.

Note by the Chief Engineer, General Buildings and Roads Branch.

With reference to the enquiry in the Revenue Department, it is remarked that the list of out-buildings to be provided for Revenue buildings, such as the one under consideration, was laid down in G.O. No. 1014 W. dated 20th April 1874, and that the revised plan of the outbuildings was issued with G.O. No. 1409 W dated 28th May 1889. In any case no type design appears necessary for a store-room as this can cheaply be provided by increasing the length of the cook-room building.

Proceedings of the Board of Revenue
(Land Revenue)
Dated 21st December 1889.
No. 7820. Mis.
Mr. A. W. Bliss.

Read Letter from the Collector of Vizagapatam, dated 29th November 1889 No. 3687.

Resolution.

The plans and Estimates for constructing a new office for the Deputy Tahsildar at Sringavarapu Kota at a cost of Rs 8,690 are submitted for the Sanction of Government and the provision of funds in the Budget of the Public Works department.

2 The estimates were called for so far back as July 1884 (Endorsement of the Revenue department dated 24th July 1884 No. 3177), on a representation from the Collector, Mr. Turner, that the existing building was in a dangerous state of disrepair, that all the walls had cracked badly, and that there was no use in repairing it.

Order

~~ABS~~TRACT.

Order thereon, 29th January 1890; No. 635

Approved and transferred to the Public Works Department.

2. It is observed that provision is made for an outhouse consisting of a cookroom and a store room for the use apparently of the jail inmates. As such an outhouse would seem to be a necessity, the Public Works Department will be requested to state why no provision for it is made in the standard design.

Note by the Chief Engineer General Buildings and Roads Branch.

With reference to the enquiry in the Revenue Department, it is remarked that the list of out-buildings to be provided for Revenue buildings, such as the one under consideration, was laid down in G.O. No. 1014 W. dated 20th April 1874, and that the revised plan of the outbuildings was issued with G.O. No. 1409 W. dated 28th May 1889. In any case no type design appears necessary for a store-room as this can cheaply be provided by increasing the length of the cook-room building.

7.2.90.

6.2.90 E.W.

With reference to the enquiry in the Revenue Dept, it should be pointed out that the list of outbuildings to be provided for Revenue buildings such as the one under consideration, was laid down in G.O. 1034 W of 20-4-74 & that the revised plan of outbuildings was issued with G.O. 1409 W of 25-5-89.

In any case no type design appears necessary for a store room, as this can always be provided by increasing the length of the cook room building
