Proceedings of the Board of Revenue (Land Revenue), dated 12th November 1889, Mis. No. 6906.

MR. H. W. BLISS.

Read—endorsement of the Collector of North Arcot, dated 31st October 1889, No. 5337-Rev. Genl., on letter from the Superintending Engineer, V Circle, dated 21st October 1889, No. 4746.

Resolution—dated 12th November 1889, Mis. No. 6906.

The plan and estimate for reconstructing the record-room of the taluk office at Gudiyátam, at a cost of Rs. 2,720, are submitted for the sanction of Government.

2. The Executive Engineer reports that the walls of the old record-room having cracked in many places and that the building itself having been in consequence in a dangerous state, he had it demolished to save materials. The Executive Engineer further reports that the new room to be substituted is to be according to the standard design, excepting in its length, which is to be extended from 40 feet in the standard plan to 53½ feet. The Collector explains that the extension is necessary to afford proper accommodation for the records, which in the old room had, in some cases, to be left on the floor.

Sir,

I have the honor to forward to you for disposal under G.O. No 483 W. of 21st February 1884 a plan and estimate of Rs 2720 for reconstructing the record room in place of an old one already demolished to the Taluk Cutcherry at Gudiyatam. The present estimate is framed on the recent standard design approved in G.O. No 495 W of 3d June 1887.

2. The length of the demolished room was 35 feet and the length allowed in the standard design is 40 feet but the Estimate provides for constructing a 53 1/2 feet room according to your request to the Executive Engineer necessity of which I request you to explain in forwarding the Estimate.

3 Provision is made in the Estimate to utilize all the old materials that are available from the demolished structure.

4 The present Estimate is Classed under Original works.

I have &c.

Sd/ W. H. Burton, Col R.E.
Superdg Engineer
V Circle

RECORD'S GEN. 3466 1039

No 5337/Rev 26 of 89. (True copy)

Submitted to the Board of

Revenue (Land Revenue) for approval, with the enclosures, including the Estimate, duly Countersigned.

2 The reason for the proposed extension of the record room is that the accommodation is necessary. The plan of the standard record room is objectionable. It is too narrow & the records are crowded up. Owing to want of space it is necessary to leave records on the floor. The only other standard Cutcherry in the District is Arcot and there more space is required. Wallajah is the only Taluk Cutcherry which has proper record accommodation and it is a modification of the standard plan. I would have preferred to have the new record room at Gudiyatam wider instead of longer, but this would have involved new

foundations and most of the old materials would have been useless. For economy sake therefore I was obliged to recommend that the addition should be made in the length only.

NOTE OF REMARKS.

The estimate under review amounting to Rs 2,720 provides for reconstructing the record room of the Taluk Office at Gudiyatam in the North Arcot District.

It is explained that the walls of the old record room are much cracked & the building must be taken down to save the materials. It is now proposed to construct a record room on the lines of the Standard design circulated with G.O. No 1495 W d/3-6-87 with the exception that the length [illegible] of the room is to be increased from 45' in the Standard plan to 53½' in order to provide sufficient accommodation for the records – The length of the old record room was 35 feet –

The present record room is to be built on the site of the old building, and will be founded on concrete 1½ feet in depth, the basement is to be of burnt stone in mortar and the walls are to be built with brick and mortar, and will be plastered inside and pointed outside –

The floor of this room will be asphalted ¾" thick with a concrete bed 4" 9" thick, that of the verandah will be of concrete 4" thick.

if 4" should be sufficient.

The roof is to be trussed & covered with flat & pan tiles with chunam borders, the timber to be used will be teak – The dimensions of the scantlings may be accepted as correct, some of them vary slightly from the dimensions given in the Standard Est: –

As far as practicable the materials of the old building are to be utilized in the construction of the new record room –

The rates are fair – Contingencies & Petty Supervision are provided for in the Est: at the rate of 3% each –

The Estimate has been countersigned by the Collector and approved
