It has been decided
to decrease the Establishment
employed in Tank Restoration
Scheme. investigation considerably
next year and to employ the
amount thus available on
an increased grant for execution.
Having regard to this and to
the demand now frequently made
by Executive Engineers for extra

Establishment to carry out Tank Restoration Scheme work it is considered advisable that a considerable increase should be made to the temporary establishment.

It is requested therefore that 8 extra temporary overseers may be employed from the commencement of next official year to be employed in the Divisions where there are greatest accumulations of sanctioned estimate.

This is in supersession of the demand for 5 temporary overseers made in this office
