GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Military Works.

READ—the following papers :—

From the Superintending Engineer, III Circle, dated 25th September 1889,
No. 1868.

ABSTRACT.—Forwarding proposition statement of establishment for Bellary division for
1889-90.

Office note [from the Examiner, Public Works Accounts, dated 30th October 1889, No. 1532-C.

No. 5116-C.

Referred to the Military Department for consideration.

CHEPÁK, (Signed) R. R. E. DRAKE-BROCKMAN, Lieut.-Col., R.E.,
6th November 1889. Joint Secy. to Govt., P.W.D.

No. 7976, Military.

Referred to His Excellency the Commander-in-Chief for favor of report through
the Controller of Military Accounts, with advertence to Proceedings of Government,
No. 4589, dated 21st August 1883, a copy of which is enclosed.

(By Order.)

FORT ST. GEORGE, (Signed) A. KENNEY-HERBERT, Brigdr.-Genl.,
15th November 1889. Secretary to Government.

From Brigadier-General M. PROTHEROE, c.B., c.S.I., Quartermaster-General,
to the Secretary to Government, Military Department, dated Ootacamund,
29th January 1890, No. 124.

In returning papers received with Reference Order No. 7976, dated 15th Novem-
ber 1889, I am desired to submit, for the information of Government, copy of a letter,
No. 3536, dated 13th December 1889, from the Executive Engineer, Bellary Division,
to the Superintending Engineer, III Circle, and the reply thereto, No. 2965, dated 6th
January 1890, and to state that, as it is a matter of much difficulty to decide as to
what portion of the cost of the proposed establishment should fall on Civil and what on
Military funds, the water of the Fort ditch being reported to be used altogether by the
Civil, whereas Fischer's tank is almost exclusively used by the Military, and both are
fed from the Alipore tank, it would seem desirable to allow the question to stand over
for the present as suggested by the Superintending Engineer until final orders are
issued on the general water-supply of Bellary.

No. 105-G.

Forwarded.

2. This office concurs in the opinion expressed by the Quartermaster-General, and considers that, for the reasons given by that officer, the cost of the temporary lascars should continue to be borne by Military Works.

5th February 1890.

(Signed) C. F. THOMAS, Lieut.-Col.,
Controller of Military Accounts.

No. 1105, Military.

Transferred to the Public Works Department and the referred papers returned.

2. It is suggested that, pending the issue of final orders on the question of the water-supply of Bellary, the cost of the temporary lascars be continue to be borne by the Military Works.

(By Order.)

FORT ST. GEORGE, 13th February 1890. (Signed) A. KENNEY-HERBERT, Brigdr.-General,
Secretary to Government.

ORDER—dated 20th February 1890, No. 544 W., Public Works.

Ordered accordingly.

FEBRUARY.

Water-supply at Bellary

Orders relative to the cost of certain temporary lascars being continued to be borne by Military Works pending the issue of final orders on the question of the —.

544/3
Copy of letter from the Executive Engineer Bellary dated 13th Dec 89.

In forwarding herewith (to be returned) the papers relating to the entertainment of certain lascars under Temporary/Petty/Concomitant Establishment for Bellary Water supply works, received from the Station Staff Officer, Bellary, I have the honor to remark on the subject of the proposed distribution of Charges between Military & Civil, that as a matter of fact I find that the troops in garrison do not use the water from the Fort Ditch for any purposes, but take their supply wholly from wells. I understand, however, that the system was designed originally for the troops in case of other sources of supply failing. It seems, however, to be exclusively used by the Civil Population. In these circumstances I request your opinion regarding the question

question raised by the Military Department.

Copy of Memo from the Supt of Engineer
3^d Circle Bellary to the Exec. Engineer
Bellary Division No 2965 of 6th Jan'y 90.

Your letter No 3536 of 13-12-89.

The permanent petty Conservancy Establishment proposed by me for the Bellary water supply system, amounting to Rs 468, was intended to take the place of the temporary Establishment sanctioned annually out of the Lump Grant for repairs to Military works in the Bellary Command. This year the cost is estimated at Rs 612. The construction of the works and their maintenance and repairs has always hitherto been debited to Military works. The subject of Military and Municipal works being debited each with their fair share of the cost of improvements to and maintenance of the water supply system was brought up at the meeting of the Committee assembled, by order of the Government, on the 5th February 89,

MS. 1517/123
17-5-90

but nothing was definitely decided on this point, and no action was taken on the report of the Committee by Government pending the investigation of the Inapabudra Project. That Project having now been definitely closed, it would seem expedient that Government should order the Committee to reassemble with further instructions, amongst others this point of the Conservancy Establishment necessary for the works, and from what funds its cost is to be met. I would suggest therefore that the matter under reference lie over, and that present arrangements be continued till final orders are passed on the whole subject of the water supply of Bellary.

No 4066

True Copies forwarded to the Station Staff Officer Bellary for information with reference to his No 1170 dated 6th Decr 89 herewith returned.

From

BRIGADIER-GENERAL M. PROTHEROE, C.B., C.S.I.,

QUARTER MASTER GENERAL,

To

THE SECRETARY TO GOVERNMENT,

MILITARY DEPARTMENT.

SIR,

In returning papers received with reference to
Order N. 7976 dated 15th November 1889, I am
desirous to submit for the information of
Government, copy of a letter N. 3536 dated 13th
December 1889, from the Executive Engineer
Bellary Division to the Superintending Engineer
3rd Circle and the reply thereof N. 2965 dated
6th January 1890, and to state that, as it is a
matter of much difficulty to decide as to what
portion of the cost of the proposed establishment
should fall on Civil and what on Military
Funds, the water of the Fort ditch being reported
to be used altogether by the Civil, whereas
Fischer

Fischer's Tank is almost exclusively used by the Military, and both are fed from the Atlipore tank, it would seem desirable to allow the question to stand over for the present as suggested by the Superintending Engineer until final orders are issued on the general water supply of Bellary.

I have the honor to be

Sir

Your obedient servant

M. Jamnadas
