GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper:—

From Major A. W. SMART, R.E., Executive Engineer, South Arcot Division,
to the Superintending Engineer, V Circle, dated Tindivanam, 12th February
1890, No. 90.

Under Code para. 1339, I have the honor to request that you will be good
enough to obtain sanction of Government for the execution of following contribution
works by this department:—

(1) *Extending and providing loose stone apron to Otteri dam across the Vanama-
devi anicut channel, estimate Rs. 1,460, register No. 125 of 1889-90.*—The ryots of
Otteri village have voluntarily agreed to contribute Rs. 260, being the one-third of
the cost of extending the dam and closing breaches, and paid the amount into treasury
in March 1889.

(2) *Kottacolam anicut: filling the breaches in the right embankment, estimate
Rs. 840, register No. 141 of 1888-89.*—The rate of Rs. 3-7-6 for earthwork provided
in the original estimate was considered inadequate as earth had to be conveyed from a
long distance for closing breaches, there being no land available nearer the work to
take earth from. The ryots interested were asked to execute the work as contractors
did not offer to take it; the villagers have promised to contribute a sum of Rs. 196-3-4
towards the difference of cost of earthwork. A revised estimate for the above amount
has been sanctioned, in which Rs. 5-6-0 for earthwork has been provided. The
contribution was paid into the treasury in September 1889.

(3) *Yeroonoyapatnam channel: constructing two dams, one across the main channel
near and another at the head of it, estimate Rs. 360, register No. 141 of 1888-89.*—
The main channel from Somandargudi anicut, in Kallakurchi taluk, having been
deepened by the ryots, very little water passed in consequence by the branch channel
to the Yeroonoyapatnam tank; and the latter villagers complained of this, and the
General Duty Deputy Collector then arranged with the ryots to contribute Rs. 160
towards the construction of two division dams at the bifurcation and recovered the
contribution in September 1889.

No. 7425.

Forwarded to the Chief Engineer, Public Works Department, for sanction.

20th February 1890.

(Signed) W. H. BURTON, Col., R.E.,
Superintending Engineer, V Circle.

ORDER—dated 1st March 1890, No. 654 W., Public Works.

Sanctioned.

(True Extract.)

Captain, R.E.,

Sir

Under Code para 1339, I
have the honor to request that you
will be good enough to obtain sanction
of Government for the execution
of following contribution works by
this Department.

1. Extending and providing loose
stone apron to Otteri dam across
the Vanamadevi Ancient channel,
Estimate Rs 1460/ Register N^o 125 of
1889-90. The ryots of Otteri village
have voluntarily agreed to contribute
Rupees 260/- being the $\frac{1}{3}$ of the cost of
extending the dam and closing
branches, and paid the amount into
treasury in March 1889.

2. Kottacolam Ancient. Filling
the breach in the right embankment
Estimate Rupees 840 Register N^o $\frac{141}{88-89}$.

The rate of Rs 3-7-6 for earthwork provided in the original estimate was considered inadequate as earth had to be conveyed from a long distance for closing breaches, there being no land available nearer the work to take earth from. -

The ryots interested were asked to enclose the work as contractors did not offer to take it; the village pargans have promised to contribute a sum of Rs 196-3-4 towards the difference of cost of earthwork. A revised Estimate for the above amount has been sanctioned, in which Rs 5-6-0 for earthwork has been provided. The contribution was paid into the Treasury in September 1889.

3. Yeroooyapatnam Channel.

Constructing two dams, one across the main channel near and another at the head of it. Estimate Rupees 360. Register No 141 of 1888-89. The main channel from Sornandargudi ancient in Kallakurichi Taluk, - having been deepened by the ryots, very little water passed in consequence by the branch channel to the Yeroooyapatnam Tank; and the latter villagers complained of this and it

Collector then arranged with the ryots to contribute Rs 160 towards the construction of two division dams at the bifurcation and recovered the contribution in September 1889. 20
