Superintending Engineer V. Circle

To,

The Chief Engineer

P.W. Department

Sir,

Two Agate pens received with Ferris-
Perriside Copying Press obtained from England
for the North Arcot Division were found broken.
The case containing the Press was not opened at
the P.W. Stores but was despatched thence to Vellore.
I saw the pens myself on the 6th January 1890 and
only by the very closest Examination I can be
discovered that they are broken. The pens must have
been packed up broken in England. They have been
returned by the P.W. Superintendent P.W. Stores to the
Director General of Stores India Office and I have the
honor to request that the Director General may be
requested to supply two ^{other} pens in lieu.

I have the honor to be
Your most ^{devoted} obedient servant
W. H. Burton
