The Chairman,
Ootacamund Municipal Council

To The Chief Secretary to Governm
Local and Municipal Dept
Fort St. George
Madras
through the Collector
Nilgiris

Sir,

In submitting copy of Resolution No. II dated 31st October 1889 of the Ootacamun Municipal Council I am desired by that bo to express the hope that Government will pleased to place at their disposal acres 4.2 of land together with the buildings standin thereon known as No $\frac{I}{30}$ and situated within Municipal limits.

2 The above noted area lies at the outfall of the lake and also of the mai sewer, by means of which it is proposed t carry off the whole town night soil by th

the agency of water. The details of the Scheme are not yet sufficiently matured for Submission to Government but a main feature is the Construction of Silt traps in No $\frac{I}{30}$ the acquisition of which is consequently indispensable & hence this application

3 Under ordinary circumstances application for the land should have followed and not preceded the Submission of plans ~~and~~ Specifications and Report, but I am led to take the latter course by Knowledge of the facts that the Superintending Engineer has already been recommended to sell the land plant and buildings and it is important therefore that the Council should be first in the field so as to forestall a private Speculator.

2°/3

4 . The land contains 2 sheds and a rough building known as the Mill House where I believe bricks used to be made. The Executive Engineer whom I have consulted semi-officially so informs me that both land and buildings are useless and indeed a burden to the

the D. P. W. so far as his Division is concerned. He proceeds to remark
"I can see no reason at present for opposing the acquisition of the land by the Municipality. It appears to me that it may possibly be of great use to them and that there is little probability of its being of any use to the P. W. D."

Under these circumstances I trust that if this area should not be required for any other public purpose, the proposal I now advocate may be favorably considered.

I have the honor to be

ENCLOSURE. 1

SUBJECT.

Submitting Copy of Resolution No. II dated 21st October 1889 of the Ootacamund Municipal Council for the purchase of piece of land No. I/30 situated at the extremity of the Lake

[with an endorsement]

No. 438. No. 1 Sub Divisional Office P.W.D.
Ootacamund 7th December/89.

From
The Officer
in charge of No. 1 Sub Division
Ootacamund

To
The Executive Engineer,
Nilgiri Division,
Ootacamund.

Sir,

In reply to your endorsement No. 3049 of 4th instant on Superintending Engineer's No. 612/ID. of 3rd idem herewith returned with its enclosures, I beg to state that I see no objection to the land and the old Mill House being handed over, but not the remaining drying shed, as this is composed of wood and corrugated iron and should be sold as it stands.

I think that the corrugated iron could be utilized on works in the Division as they are good. I have valued it Rs. 130 (iron and timber complete).

The

2. The Mill House is a Masonry building having a tiled roof so that the materials cannot be made use of if demolished.

3. The engine shed has an iron roof and could be removed and utilized elsewhere.

4. With reference to the other drying shed I beg to state that the same was sold and removed by the Hunt Committee and utilized for the new Kennels built on the old Kandal Brickfield.

The Hunt Committee has nothing to do with the Lake Brickfield referred to as the new Kennels are situated about a mile from it.

5. I further beg to state that before the property could be handed over all our bricks and Plant would have to be removed, the latter could easily be removed but the former could not be without a large wastage of bricks, as they would have to be again carted to whatever works they may be required for.

I beg &ca

Forwarded to the Supg. Engineer 4th Circle, in reference to his endorsement No. 612/N2 of 3rd Instt., with an intimation that the transfer of the site of the brick-fields to the Municipality will not in any way affect the Hunt Committee, as they simply bought building materials, which have long since been removed. If the Municipality will not buy the remaining building materials at a reasonable valuation, the undersigned would suggest them being sold by auction or removed to Stores for future use in the Division.

Sir,

Adverting to your Memo. No. 5571C. of 28th Ultimo, I have the honor to submit herewith a copy of letter No. 3141 of 11th Instt, from the Executive Engineer Nilgiri Division, reporting that there is no objection to the transfer+ of No. 2 Drying shed in the Lake Brickfield at Ootacamund together with the land attached to it to the Municipality and I concur in the opinion expressed by the Executive Engineer that in the event of the Municipality not being prepared to purchase the materials of the buildings at the Brickfield, they should either be sold by public auction or removed to the
