17TH MARCH 1890, No. 874 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper :—

Office note from the Examiner, Public Works Accounts, dated Madras, 10th March 1890, No. 1301.

In continuation of my office note No. 1696, dated 27th November 1889, I beg to submit a list of vouchers long overdue on the 15th January 1890.

2. The list includes (1) vouchers of the accounts for July 1889 (and previous months) never received at all from the Executive Engineers concerned and (2) vouchers of June 1889 (and previous months) which have at some time been received from the Executive Engineer but have been returned to him for correction, completion, &c., and have never been resubmitted.

3. There is a great improvement in the number of vouchers due from the Ganjam division, and also in the number due from No. I Periyár division, but it would seem that the number of the latter might be further greatly reduced, with little trouble, by the return of the large number of vouchers, the objections to which have now been withdrawn.

ENCLOSURE.

STATEMENT of vouchers long overdue on the 15th January 1890 with the Executive Engineer's explanation (when received) and the Examiner's remarks.
N.B.—In column 5 "No" means that vouchers have never been received at all from the Executive Engineer and "E" that it was returned to him after the receipt for correction, &c., and has not been sent back.

Executive Engineer's remarks in list of vouchers for July 1889. Not received from Bridge Works office. Not received from the contractor.	1 to 2. The delays are brought to the notice of Government. The Executive Engineer's attention has been called every month to the absence of the vouchers. Except in the case of item 1 there is nothing to show why the payments should have been made at all without taking a receipt at the time as appears to have been done contrary to rule.	(1) to (9). The Superintending Engineer, V Circle, will submit a special report on the subject of these vouchers, stating what steps have been taken in each case to obtain receipts.

See item No. 2 of last statement and my office note No. 921, dated 24th February 1890. The result of the further action to be taken by the Executive Engineer to obtain a fresh voucher might be awaited. If the Executive Engineer then reports that the voucher cannot be obtained, the sanction of Government to dispense with it might be given—see also G.O., No. 525 W., dated 27th February 1890.	(10). Sukoo is reported to have died of cholera and he cannot therefore be prosecuted for the evasion of stamp law and returns the unstamped receipt in question.	11 and 12. The vouchers were impounded under the Stamp Act and sent to the Collector for necessary action. The Executive Engineer should obtain and send in fresh vouchers as the original ones cannot now be validated. 13. In the circumstances explained there is apparently nothing to be done but to accept the original unstamped receipt.	(11) and (12). The Superintending Engineer, V Circle, will see that steps are taken to obtain fresh vouchers and will report the result in due course. (13). Sanctioned as recommended by the Examiner.

The Sub-division officer was ordered to procure a copy from the payee which was despatched to the Division office, but the same was not received in the Division office. On asking the Sub-division officer to procure another copy, he reports that the payee who is the Station-master, Kistnampet Railway Station, refuses to grant a second copy. The Traffic Manager will be addressed and copy procured and submitted in a week.	15. See item 6 of last statement. The voucher has not been received to date. Orders are solicited.	(15). This is an approved invoice due from the Collector of Tanjore on account of certain rain-gauges supplied through the Meteorological Reporter to Government. It is explained that the invoice cannot be returned commingled owing to non-receipt of the gauges from the latter officer; but in such cases it would seem to be the duty of the Superintendent to get the receipt of the officer to whom the articles have actually been delivered, in this case the Meteorological Reporter.	(19). The General Superintendent will apply to the Meteorological Reporter for a receipt for the rain-gauges and will report the result through the Superintending Engineer.

21	" " " "	"	"	"	<i>Ganjam Division.</i> No. 1 Pertyar.	20. Three hundred and ten vouchers are due (67 never submitted and 233 received and returned for rectifying irregularities. Out of these 233 vouchers returned, 168 are for reasons indicated by items 1 to 7 of statement in Examiner's office note printed with G.O., 3844 W., dated 24th November 1889, which will be accepted if returned). The delay in returning these 168 vouchers no longer objected to is not explained and is not understood. 21. Forty-nine vouchers are still due as against 151 due at date of last report. Of these 44 are vouchers not received at all from the Executive Engineer, and 6 are vouchers returned to the Executive Engineer for completion, &c., and have not been sent back. The Executive Engineer states in his letter No. 411-P, dated 11th February 1890 that "attempts are being made to submit early the vouchers still due."	(20). The vouchers no longer objected to should be returned to the Examiner without delay, and efforts should be made to clear off the remaining arrears. (21). The Government is glad to notice the improvement in this division. The vouchers still due should be submitted as soon as practicable.

ORDER—dated 17th March 1890, No. 874 W., Public Works.

The attention of Superintending Engineers concerned is drawn to the orders of Government against each item in the statement; and the special attention of the Chief Engineer, Periyár Project, is invited to the remarks in para. 3 of the Examiner's covering note.

Sir,

I have the honor to state
in reference to the above, after person-
al inspection, that the line of 1000
Police huts at Wellington are in a very
unsafe condition and would recom-
mend them being raised to the ground
and new huts built instead.

The roof timbers are in fair order
but if new buildings are to be
erected I would not recommend
the use of the old timber, for it will
only necessitate repairs before long.

Try how for the present
I would beg that you will impress
on the Superintendent of Police
