Office note from the Secretary to Government, Public Works Department, to the Secretary to Government, Revenue Department, dated Madras, 19th December 1889, No. 5924 C.

What the Government of India wanted to be explained in its letter No. 405 A.C.W., dated 26th November 1889, was the necessity and urgency for the construction of a masonry dam across the Valavanar. The papers printed with G.O., No. 516, Revenue, dated 20th June 1889, explain the necessity for the work, but do not show the special urgency which necessitates the provision of funds for it in 1890-91.

2. As it is not likely that the Government of India will provide any grant for the work in the absence of sufficient explanation as to its urgency, it is requested that further particulars may be furnished in view to the Government of India being addressed with regard to the required allotment.

Read—the following Proceedings of the Board of Revenue (Separate Revenue), dated 19th December 1889, Mis. No. 4334:—

Read—endorsement of Government, Revenue Department, dated 11th December 1889, No. 8016.

Resolution—dated 19th December 1889, Mis. No. 4334.

It will be observed from para. 3 of the Board's Proceedings, dated 11th February 1889, No. 65, printed with G.O., dated 20th June 1889, No. 516, Revenue, that the Board stated that it was not convinced of the necessity of a permanent structure of the kind suggested and therefore referred the question for the orders of Government. The proposal was, however, approved by Government on the representations of the Collector of Tanjore and the local officers of the Public Works Department (*vide* the correspondence submitted with Board's Proceedings, dated 27th May 1889, Mis. No. 1896, printed with the Government Order quoted above). The Board has nothing to add to the remarks already made in its Proceedings first quoted above.
