No. 49 NL

Superintending Engineer's Office

II CIRCLE,

Dated 19th April 1896.

From,

J. Hannan Esquire,

Superintending Engineer.

II Circle.

To,

The Chief Engineer,
Public Works Department,
Madras.

Sir,

I have the honor to return herewith the memorial of late Anicut Superintendent R. A. Mathiasew my Achari forwarded me for report with your endorsement No 1039 C of 12th Instant.

2 The memorialist correctly states in his memorial the action taken by me on receipt of Mr O'Connell's letter no 492 of 11-11-89 which is quoted in extenso in the margin of his memorial.

3 The memorialist is an old servant & was fully aware of the risk he ran in submitting of false measurements, and he entirely fails to show why he runs

run such a risk. His conduct is in my opinion quite inconsistent with honesty of intention. He does not show that he was even pressed to submit bills although this would be no excuse for his conduct. Mr O'Connell in his letter above quoted gives it as his ^{opinion} intention that if the measurements had been passed the additional material would never have been spread. In this opinion, I concur. I believe the material would have been carted to other ramps & billed for again. There was nothing to prevent this being done.

4 The five so called reasons given by the memorialist for submitting false measurements are not to the point, in fact, are no reasons at all and compel the conclusion that the true reason will not bear stating.

5 Before finally deciding on removing him from his post, I took advantage of the Chief Engineer for Irrigation being here to show him all the correspondence on this subject, and after perusing it that officer informed me that he saw no reason to take

take exception to my action, and I have lately received from him a copy of an endorsement to the memorialist on a petition presented to him in which he declines to recommend the memorialist's re-entertainment in his post of Ancient Superintendent.

I have the honor to be,
Sir,
Your most obedient servant

J. H. Annan
Supt Engineer
